

JUSTIFICATION FOR PROPOSAL OF ROAD IN FOREST LAND

The 2.889 Hact. Forest land is required by the HPPWD for construction of link road from Thandapani to Shagedhar via Multha Km.0/00 to 3/750 , mostly be part of a forest land coming in the proposed alignment at starting point of the proposed road .The starting point could not be shifted in such a way that the piece of forest land could be saved & proposed felling could be reduced because of land owner whose land is coming in the alignment of this road have left very less portion of land in their possession and the peoples of economically weaker section & are unable to donate extra land for construction of this road . However , the villagers have already donate 0.339 Hact. Of their land for construction of this road after convinced them hardly by this department . The villagers faces various problems as they have to take down hill to reach their village and is very difficult for them to transport their essential commodities up to their village in the absence of road especially in view of rugged terrain and steep slopes . The villagers have to rush at least 5 km. on foot to take even minor medical/education facilities.
