**CLARIFICATION REGARDING OF POSSIBILITY TO REDUCING THE
NUMBER OF TREES**

Three alignments were explored on site for the construction of Thandapani to Shagedhar via Maltha road, in which the **first proposed alignment** has **190 trees** and **2.899 hac.** Of forest land. The **second alignment** has **247 trees** and **3.40 hac.** Of forest land. The second alignment had to be rejected. Then the **Third alignment** was done in which **307 trees** and **3.80 hac.** of forest land involved, The third alignments has also rejected because It is also have more trees and forest land after doing these three alignments, now no further alignments is possible to reducing the number of trees in proposed alignments.
