DEAR SIR,

With utmost respect we would like to have you kind attention on below mentioned points.

1. We have lots of Departments like NLD, FTTX, Intracity & Enterprises and every Department has their own requirement with priority and accordingly we apply to your good office on variable Times.
2. All these projects are located at different geographically location so clubbing these cases would not be viable for us and for other Authority too.
3. Though priority is finalized on the basis of lots of aspects like the Customer Demand/Connectivity with other state to boost up the existing network.
4. All these priorities are set by our Technical Team and to provide the strongest network for public at Large to avoid Call Dropping/Slow speed Network.
5. Sir, some of these cases belongs to 5G Network, which are getting delay unnecessarily as we have to complete those project and immediate basis.

Sir, keeping the mind of above mentioned point it would be too difficult to apply these cases separately.

Kindly consider our request and forward these cases to Nodal Officer for further proceeding. We shall be thankful to you
