

Certificate for Suitability of Area proposed for Compensatory Afforestation

Proposal No: FP/ML/OFC/143459/2021
Name of Project: Telesonic Networks Ltd - OFC
Area (in Ha): 0.40458 Ha

The proposed area for compensatory afforestation with respect to the forest land proposed for diversion under Forest Conservation Act, 1980 in Songsak & Rongrenggre Reserve Forest for Laying of Optical Fibre Cable by Telesonic Networks Ltd has been selected in 1 patch for planting 100 Saplings as Compensatory Afforestation of Road side plantation in the Compartment No.7B of Rongrenggre Reserve Forest along the forest land that is being diverted (Starting Point: 25°33'14.40"N 90°33'40.98"E Ending Point: 25°33'2.57"N 90°33'51.97"E).

In order to reduce the biotic pressure as well as to improve the forest cover and aesthetic value, this area is proposed for compensatory afforestation through artificial regeneration of native miscellaneous and fruiting species. The area identified for Compensatory Afforestation is suitable for plantation from management point of view and is free from encumbrances and encroachments.
