

Detail Note of the Project

Short narrative of the proposal and project: -

The project envisages construction of Atal Medical & Research University at Ner Chowk, District Mandi, A State University under Department of Medical Education, Government of Himachal Pradesh. Every state in India is required to have a medical university to co-ordinate and facilitate education in medical and allied subjects. AMRU will control undergraduate courses like MBBS, BDS, BAMS, BHMS, B. Pharmacy, BSc. Nursing & other allied Health subjects etc., Postgraduate courses like MD/ MS in various allopathic and ayurvedic medical subjects, M. Pharmacy, MSc. Nursing & Allied Health subjects etc., Super Specialty courses like DM/MCH in various medical subjects and PhD programs. In addition, AMRU will run constituent colleges in the campus which will directly impart education in various medical & allied subjects. Thus, construction of AMRU will have a huge direct and indirect impact on the health status of the people and health education in the state of Himachal Pradesh and other states of India. The grant of approval for the diversion of forest land, in view of non-availability of non-forest land, for the purpose of construction of Atal Medical & Research University Building in Ner Chowk will also greatly help the development of this area as the constituent colleges of the University will provide employment opportunities to a large population of the area and state. The Constituent College of the University will also run tertiary care specialized hospital that would be a boon for the people of the state. Various health and education related, schemes of the State and Central Government will be implemented through the colleges of the University.
