Certificate for Suitability of Area for Compensatory Afforestation

Proposal No: FP/ML/IRRIG/41289/2019.

Name of Project: Hydrological Observation Station

The area for compensatory afforestation with respect to the forest land proposed for diversion under Forest Conservation Act, 1980 in Chimabangshi Reserved Forest, Dainadubi Range, North Garo Hills, Meghalaya for construction of Construction Hydrological Observation Station at Satmile by the Office of Executive Engineer, North Garo Hills, Water Resources Division, Resubelpara, North Garo Hills has been selected as 1 patch of 0.1 Ha (min 100 saplings) at 25°50'15" N 90°46'54" E within Chimabangshi Reserve Forest near the forest land that is being diverted. The area is of degraded forest and is a Tropical Moist Deciduous Zone. In order to reduce the biotic pressure as well as to improve the biodiversity along with forest cover, this area is proposed for compensatory afforestation through artificial regeneration of native miscellaneous and fruiting species.
