

**CERTIFICATE REGARDING SUITABILITY OF AREA IDENTIFIED FOR  
COMPENSATORY AFFORESTATION (CA) AND ANR FROM MANAGEMENT  
POINT OF VIEW**

No suitable non-forest land is available for taking up compensatory afforestation under Noney Forest Division, Noney. As such, suitable degraded forest land have identified at 1(one) patch under the Division as shown below:

Sl.No.	Division	Name of village/ plantation site	Area (Ha)	Compt. No.
1.	Noney Forest Division, Noney	Kharam Pallen	11	54
2	Noney Forest Division, Noney	Kharam Pallen	0.73	54
	Total		11.73	

The forest type of the area falls under sub-Tropical semi-Evergreen and moist deciduous Forest. Tree species such as *Litsea spp*, *Schima wallichii*, *Quercus serreta*, *Erythrina indica*, *Bombex ceiba* are found in these areas. As such, tree species namely *Gmelina arborea*, *Terminalia myricarpa*, *Michelia champaca*, *Artocarpus chaplasha*, *Quercus serreta* etc, will be suited for plantation in the areas.

The indentified CA site can be managed effectively because of its proximity to the village. Hence, the area identified is best suited for taking up of Compensatory Afforestation(CA) and ANR.
