The proposed project in Maharashtra is located in East Nashik Division in forest compartment number-324 and Gat number 110 of Bhavde village (Reserved forest) of Deola Taluka , and in forest compartment Number -561 and gat number 55 of Kheldari village (reserved forest) of Chandwad taluka. the total length 2562 meter and total forest area of diversion in Nashik district is 6.3912 ha in which (length of realignment section- 404 m x width- 30 m) remaining part (length 2158 m x width- 24 m) Forest land. road that passes through forest area Which is being widened for the rehabilitation and upgradation of the newly declared national highway 752G

Forest land requirement is kept the minimum. Any other alternative chosen for the project shall not be involved because this is an old existing road which passes through forest area therefore it is the only choice which is available. The area is to be diverted is not sensitive and will not have any adverse effect on the ecology of the area. The proposal is recommended for further approvals.
