

JOINT INSPECTION REPORT

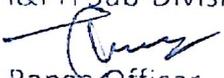

48

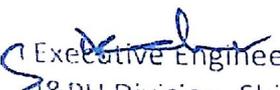

Joint inspection of site for diversion of land for construction of Pump house at 1st stage and 2nd stage at Mohal Batari in Sub-Tehsil Kotgarh under LWSS Dorikhad to shilajan in GP Jarol in Tehsil Kumarsain, Distt. Shimla H.P done on 04-08-2015.

Two possible alignments/sites were proposed by the user agency for construction of Pump house at 1st stage and 2nd stage. Both these sites comprises Govt./ Forest Land. In the Site No.1 , Govt./Forest land involved for diversion is 0-14-88 hectare and no trees will require removal. In the second alignments/site, 0-16-50 hectare Govt./Forest land and 10 trees will require removal. Keeping in view of the minimum area and no felling of trees Joint Inspection committee is of the view that diversion of coming in the alignment/Site No.1 is suitable. Since alignment/Site No.1 involves less forest land and entails no felling of tress and there are Govt./Forest land interspersed in both the alignment/Site, there is no scope for avoidance of Govt./Forest land and diversion of 0-14-88 hectare of Govt./Forest land is bare minimum and cannot be escaped.

The joint inspection Committee, therefore recommends that the Govt./Forest land measuring area 0-14-88 hectare coming in the alignment/Site No.1 as detailed in Check list-6 enclosed as Annexure-I be diverted under Forest (Conservation) Act, 1980 for construction of Pump house at 1st stage and 2nd stage, Tehsil Kumarsain, Distt. Shimla H.P.
