

ANNEXURE-I

The Singareni Collieries Company Limited
(A Government Company)
Ramagundam Area-III

Application for regularization of 330.1826 Ha. of Forest land in Upparlakesaram Forest Block (part of 448.90 Ha.) in Manthani Range, Peddapalli Forest Division already under utilization of SCCL for RG OCP-I in Peddapalli District, Telangana State.

Justification for requirement of 330.1826 Ha. of Upparlakesaram Forest block

- a. **Quarry area (212.7845 Ha.):** is a coal bearing area which is falling in RG.OC-I quarry and the same was already mined out.
- b. **Protection Bund against vagu (11.0422 Ha):** Part of the RG OC-III quarry area falls under Highest Flood Level (HFL) of Jallaram vagu. Thus, Protection bund constructed around the quarry to prevent the water entering into the quarry. Hence, protection bund is proposed along the periphery of the excavation area. This part of land is falling under the proposed bund area and therefore it is very essential in view of safety.
- c. **Safe Barriers (12.9413 Ha.):** The quarry and dumps of RG OC-I is spread over in wide area and it is planned to deepen the quarry up to a maximum depth of 400m. Forest land which lies beside the excavation area and dumps is a bare minimum requirement.
- d. **Roads, HT lines and Structures (93.4146 Ha.):** There are public roads and HT lines leading from 8 Incline Colony to GDK No.10 Incline and 8 Incline Colony to Centenary Colony which is passing through the proposed forest land.
