The details of Degraded Forest land to an extent 2.444 Ha for Raising of plantation for Compensatory Afforestation purpose in lieu of Diversion of Forest Land to an extent of 1.2222 Ha in Medak District for execution of 132 KV DC/SC line from 400KV SS at Narsapur to proposed 132 KV RTSS at Manoharabad in favour of Executive Engineer, Construction, TS TRANSCO, Sangareddy which has been inspected by the undersigned on 04.04.2020, The details of Degraded Forest land is as follows.

Sl. No.	Name of the Range	Name of the Reserve Forest	Compt.No, Beat, Section	Area (in Ha)
1.	Toopran	Parkibanda-I	Compt.No.183, Parikbanda beat, Manohorabad section	2.444

The type of soil generally are predominantly Black cotton and Red soils and the land is plain and gentle slope (sloppy hilly / bouldary) and suitable for raising of forest species under Semi Mechanical Method technique as proposed and detailed in the CA scheme. The area proposed for the Degraded Forest land is having forest growth with 0.4 density. Major thrust is required for development of Soil and Moisture retention capacity in the area. Works such as Soil & Moisture conservation works and formation of Water harvesting structures shall be taken up.

District Forest Officer,
Medak.
