

FORM -- A
(See Rule 6)

**Form for seeking prior approval under section 2 of the proposals by the
State Governments and other authorities**

PART ---I
(To be filled up by user agency)

1	Project details:	
	Short narrative of the proposal and project scheme for which the forest land is required	The work "Construction of suspension foot bridge over Seti khola at Palitam under Namthang Maneydara GPU" was sanction in the year 2017, with the tender amount of Rs. 35,36,602.00. The project was prepared because the existing footpath, which is being used by the villagers have a valley, on which a stream called Seti Khola is exist. During the monsoon when the discharge in the river were tremendous, the villagers were compel to crossed the khola endanger their life . The school going children are also facing a major problem with this khola. Hence keeping the above issues a project was prepared to construct 31m suspension footbridge over Seti khola, so that the bridge will provide a safe access for School children and villagers.
	Map showing the required forest land boundary of adjoining forest on 1:50,000 scale map	Enclosed
	Cost of the project	Rs. 35,36,602.00
	Justification for location the project in forest area	Since the existing footpath alignment go through the forest land, where village people were compile to crossed the stream during monsoon, when the discharge of water in the stream were high and it also endanger the human life. Hence in order to give the easy access to the villagers the project is located on the forest land.
	Cost benefit analysis (to be inclosed)	The construction of project will provide an easy and safe access to villagers, which also provide a major boost for financial social and economical growth
	Employment likely to be generated	Following employment will be generated during execution of work <div style="text-align: right;">Skilled</div> Labours = 4men engagefor 150days @ 320/day = 192000.00 Ordinary Labours = 20 men engage for 180days @220/day = 792000.00
