

Improvements to KTDC junction in Thiruvananthapuram Ponmudi road

The Thiruvananthapuram Ponmudi road is a State highway leading to Ponmudi, the most important tourist spot of Thiruvananthapuram District. KSRTC Buses operate to Ponmudi for enabling the tourists to visit the tourist spot. The Junction of road where one road leads to KTDC and Police Station and the other leads to Upper Sanatorium, is a Y junction. The KSRTC Buses coming from KTDC area cannot turn towards the Upper Sanatorium. Hence, KSRTC as well as Honble MLA of Vamanapuram LAC have requested to improve the junction to enable KSRTC buses to turn at this junction easily. To improve the junction, additional land width has to be utilised in order to widen the road. The land adjacent to the road belongs to the Forest Department and 200sqm of land is required for this improvement. The improvement works include earth work cutting for widening the road, Widening of road at the junction, road marking, provision of sign boards etc. The project is utmost necessary to enable the public visiting Ponmudi
