

Full Title of The Project: Rehabilitation & up gradation of Agra-Jalesar-Etah road (NH-321G) from Km. 0.00 to 75.700 Km in the State of Uttar Pradesh

File No.:FP/UP/ROAD/156552/2022

Date of Proposal: 10-06-2022

**CERTIFICATE TOWARDS MUCK DISPOSAL**

This is to certify that **no excavated earth will be disposed in Forest area** proposed to be diverted for the rehabilitation & up gradation of Agra-Jalesar-Etah road (NH-321G) from Km. 0.00 to 75.700 Km in the State of Uttar Pradesh.

All the excavated earth will be used for back filling & there will be no surplus muck to be disposed. **Hence Muck Disposal Plan is not required.**

**Disposal / Management Plan**

While preparing FCA case, if there is any activity in the project which involves digging of land, muck disposal/ management plan has to be prepared. **Not Applicable**

**Should include:**

- |                                                                                                                                                                             |      |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| 1. Calculation of muck to be generated. Swell factor to be applied                                                                                                          | NIL  |
| 2. Quantity of muck to be utilized in the project activities                                                                                                                | NIL  |
| 3. Balance quantity of muck, which requires disposal/Management Plan                                                                                                        | NIL  |
| 4. Carriage of muck from muck generation site to dumping site                                                                                                               | N.A. |
| 5. Ownership of the land and the consent of the land owner, in case of Muck disposal on Non Forest Land                                                                     | N.A. |
| 6. Photography & carrying capacity of the proposed muck dumping site                                                                                                        | N.A. |
| 7. Development of dumping site- construction of retaining wall and other structure as per requirement of the site. The objective is to completely stop rolling down of Muck | N.A. |
| 8. Rehabilitation of dumping site like levelling, planting of grass, shrubs and tree species                                                                                | N.A. |

Undertaking by the user agency has to be given to the effect that:

1. Muck management plan will be implemented by the user agency and in case of non implementation of the plan, they will be liable to penalty/ action at their own cost.
2. The proposed dumping site is away from river/ stream/ nala.
