### CONVENTIONAL SYMBOLS

[illegible]

### Legend

Proposed Site for  
CA Plantation

## REFERENCES

~~NH 2~~ National Highway No. 2

**NOTES :-**

Heights are in metres and above Indian mean sea level.  
Contours are approximate.  
A relative height, e.g., 0', represents the approximate height, in metres, between the spot and bottom of a steep slope.  
The kilometre stone numbers along the roads, railways and canals are shown in slant type, e.g., '5' whereas milestone numbers are shown in upright type, e.g., '5'.  
The triangulation points are shown in slant type. The station numbers are not accompanied with the heights of the point-levelled bench-marks. The points may not be directly in accordance with the contour lines. Cart-roads and unmetalled roads in this sheet are generally motorable in dry season. Permission to use those along canals is required from the Irrigation authorities.  
The existing Gangra River is liable to change owing to continual fluctuation in the course of the river.  
Tanks, shown dry in this area, usually contain water from July to December.  
The district and taluk boundaries in the Gangra and Yumana Rivers follow the main deep channel channels and will change in the future.  
Forest names and their boundaries have not been shown for want of reliable information.

## INDEX

A Modern Survey 1972-73. Updated for major details during 2005-06 and administrative boundaries updated during 2008-09.

*Projection - UTM      Datum - WGS 84*

Magnetic Variation from True North about  $\frac{1}{4}^{\circ}$  West in 2005.

1:50,000
