

JOINT INSPECTION REPORT

Joint inspection of site for diversion of 00-87-31 ha. of Govt /forest land for the construction of transmission line of Lower Kurpan -II 4.8 MW small hydro electric project in Rampur Bushahr, district Shimla held on dated 30 JAN 2014

Three possible alignments/sites were proposed by the user agency for construction of transmission line in the jurisdiction of Rampur Forest Division. In alignment-I of transmission line, 00-87-31 ha. of Govt. /forest land and felling of 8 trees is involved. In alignment -II of transmission line, 01-02-06 ha. of Govt. /forest land and felling of 10 trees are involved and in alignment -III of transmission line, 01-04-62 ha. Of Govt. /forest land and felling of 12 trees are involved. Since Alignment -I involve less Govt./forest land i.e. 00-87-31 and entails less felling of trees i.e. eight nos. There is no scope for avoidance of Govt./forest land and diversion of 00-87-31 ha. of Govt./forest is barest minimum and cannot be escaped .

The joint inspection committee, therefore, recommends that the Govt./forest land measuring 00-87-31 ha. coming in the alignment -I as detailed check list-06 enclosed as annexure -I in the proposal be diverted under forest (conservation) act,1980 for the construction of transmission line of Lower Kurpan -II (4.8 MW)
