NOTES :-

Heights are in metres and above Indian mean sea level. Contours are approximate. Important buildings are shown in black with names. A relative height Δ represents the approximate height in metres, between the top & bottom of a steep slope. The district boundary between Angul & Deogarh Districts has been surveyed as pointed out by the local officials on the ground, but has not been verified by the District authorities. The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribbons. The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks and may not be strictly in accordance with them. The common boundary between PATURIA R.F. & PETACHIRA R.F. in square E/1 & F/1 has not been shown for want of reliable information. Hand Pump is shown thus.
