Justification Note For Non Availability of Non-Forest Land Hence Proposal for Forest Land For Establishment of Sub Market at Ummachagi Village

Agriculture Marketing Department & APMC Yellapura with various state projects Planning to create primary Market platform with all basic communities at village levels so as to make the Agricultural Marketing Activity simplified. Sub Markets for Agricultural Commodities at village level creates Employment opportunities as it involves with trading Activity like Commission Agent, Traders, Hamals, Graders, Computer Operators, Transporters, Processors e.t.c. It also Supports other Activities like Canteen, Banking etc. Henceforth leads to the growth of the Village.

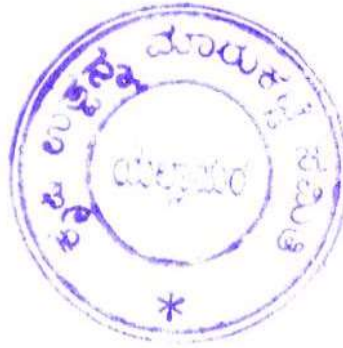

Ummachagi is a village in between Yellapura & Sirsi Taluk about 25 Km from Yellapura Town & 25 Km from Sirsi Town. It is surrounded by many villages which grow Arecanut & Paddy. The Farmer of these place find it difficult to transport their goods to the Market at taluka levels. Hence establishment of a Market at village level will enable the Farmers to sell their Commodities easily with less transportation cost & more Competetive Rates.

Enquiry was made for Requirement of Revenue Land for the establishment of Ummachagi sub market but No suitable Land is available as certified by Thasildhar Yellapur & DC Uttar Kannada. Local Enquiry & Paper Notification for Requirement of Land at Ummachagi village also being made (Notification copy enclosed) but No land is available as Ummachagi is mostly surrounded by Forest Land. Henceforth 1.4 Hecter forest Land at Survey No.36/B1A and 36/B1B is being proposed for establishment of sub Market at Ummachagi Village which is nearby Yellapur to Sirsi State Highway with all basic Needs like Shops, Hotels, Bus stop, Hospitals etc available nearby for the farmers with Goods Road Connectivity which is very useful for Agricultural trading activities which also benefits for Regulation of Agriculture Marketing.

This Project is essential for Development & increase in Agricultural Production & also to Develop Rural areas, reduce Unemployment & Avoid young generation moving from Rural Areas.
