Memo No. 1136

Dated: 21-03-2023

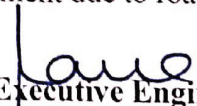

Subject: Diversion of 9.7884 ha. of forest land for construction new realignment of Rewari Sohna Palwal road NH-919 (OLD NH-71B) from Km. 41.100 to 49.350 in Sohna Hilly Portion on EPC Mode in the state of Haryana, (Forest Diversion Proposal No. FP/HR/ROAD/155111/2022).

Kindly refer to the discussion held during monthly road safety meeting held on 20.3.2023 regarding provision of alternate land for diversion of protected forest land involved in the construction of Sohna bypass.

It is informed that Ministry of Road Transport and Highways (MORT&H), Govt. of India had sanctioned the work of construction of greenfield Sohna bypass connecting Sohna - Tauru road with Sohna - Nuh road. The main purpose of construction of this bypass is to address the issue of road safety on account of several hair-pin bends in the road. Other objectives of proposed Sohna bypass include diversion of heavy traffic from Sohna city, faster movement of traffic etc. The land for the above said greenfield Sohna Highway has already been acquired and compensation has been paid to D.R.O. Gurugram for disbursement. The work has been sanctioned by MORT&H but the tenders could not be invited since forest diversion is yet to be approved by Forest Department. A copy of forest diversion case submitted to Forest Department is enclosed herewith. There is requirement of diversion of 9.7884 ha. protected forest land and Forest Department has desired that equivalent non forest land may be provided by user agency.

In the road safety meeting held on 20.3.2023, it was deliberated that Panchayat land in Sohna can be spared for the above said diversion of protected forest land. Accordingly, it is requested that suitable land with minimum area of **9.7884 ha.** may kindly be identified and transferred in the name of Forest Department, so that the construction of Sohna bypass can be started in the interest of public & keeping in view it's urgent requirement due to road safety.
