Necessity for Requirement of Forest Land:

The existing bridge is having 9 spans of 6.00 m clear. The newly reconstruction of bridge is proposed with 4 spans of 14.m each in the same alignment of this existing bridge. It is very essential and inevitable for the flow of traffic on either sides. Since the bridge lies in the reserve forest zone, the requirement of forest land is warranted for completion of the project work.

Divisional Engineer (H)
Construction and Maintenance,
Nagapattinam - 611 001.

Assistant Divisional Engineer (H)
Construction & Maintenance,
Sirkali.
