सेवा में,

श्रीमान वन प्रमंडल पदाधिकारी
वन प्रमंडल- लातेहार, झारखण्ड।

विषय:- 400 के.वी. डी/सी पतरातू - लातेहार पारेषण लाइन निर्माण हेतु लातेहार वन प्रमण्डल अंतर्गत संशोधित कुल रकबा 55.865 हे० वनभूमि अपयोजन प्रस्ताव संख्या FP/JH/TRANS/32955/2018 के संबंध में।

प्रसंग: आपका पत्र पत्रांक 1906, दि.- 02.08.2025.

महाशय,

विषयाधीन पारेषण लाईन हेतु समर्पित संशोधित वन प्रस्ताव के अवलोकन के उपरांत प्रसंगाधीन पत्र द्वारा पृच्छायें की गयी हैं जिसका बिंदुवार अनुपालन प्रतिवेदन निम्नलिखित है:-

S.N.	Query	Response
1.	Form-A Part-I के कंडिका B-1 में "List of proposal submitted in past" में शून्य अंकित किया गया है, जबकि पूर्व में आपके द्वारा इस प्रमण्डल अंतर्गत भी वन भूमि अपयोजन हेतु प्रस्ताव समर्पित किया गया है तथा राज्य में कई और प्रमण्डलों में भी वन भूमि अपयोजन हेतु प्रस्ताव समर्पित किया गया होगा, अतः इस सम्बंध में स्पष्ट किया जाए।	<p>The proposal no. FP/JH/TRANS/32955/2018 has been revised from 163.5868 ha to 126.974 ha and accordingly, the same proposal has been modified in PARIVESH. It is to inform that this is one and only proposal submitted for 400 kV D/c Patratu-Latehar line & there is no other proposal submitted for same line in the past. Hence, B-1 pertaining to "Details of proposal seeking prior approval of Central Government under the Act for diversion of forest land for the Project already submitted in the past" is filled as NIL.</p> <p>As advised, details of the forest proposals submitted for other lines which have received MoEFCC approval are 400 kV Essar (Chandwa) - Latehar line (73.166 ha), 400 kV Bedo - Patratu line (10.94 ha) & 220 kV Hatia-Namkum line (13.221 ha). Copy of Final</p>

The Principal Secretary,
Department of Forests, Environment & Climate Change,
Government of Jharkhand,
Nepal House, Ranchi - 834002.

Sub: **Final (Stage-II) approval of Central Government under Forest (Conservation) Act 1980 for proposed diversion of 10.940 ha of forest land in favour of Jharkhand Urja Sancharan Nigam Limited (JUSNL) for construction of 400 KV D/C Transmission Line from PTPS to Bero in Ranchi and Ramgarh districts of Jharkhand - reg.**

Sir,

I am directed to refer to the State Govt. letter No. Van Bhumi-22/2015-4622/Va.Pa. dated 3.10.2016, wherein prior approval of Ministry of Environment, Forest and Climate Change for diversion of 10.940 ha of forest land in favour of Jharkhand Urja Sancharan Nigam Limited (JUSNL) for construction of 400 KV D/C Transmission Line from PTPS to Bero in Ranchi and Ramgarh districts of Jharkhand, was sought in accordance with Section-2 of the Forest (Conservation) Act, 1980. After due consideration of the proposal of the State Government, the 'in-principle' approval of the Central Government for diversion of the said forest land was accorded vide this office letter of even number dated 1.2.2018 subject to fulfillment of certain conditions. The State Government of Jharkhand vides their letter No. Van Bhumi-22/2015-3665/Va.Pa. dated 19.11.2020 have furnished compliance report in respect of the relevant conditions stipulated in the in-principle approval for grant of final approval.

In this connection, on the basis of the compliance report under reference, the **final approval** of the Central Government under Section 2 of the Forest (Conservation) Act, 1980 is hereby accorded for diversion of 10.940 ha of forest land in favour of Jharkhand Urja Sancharan Nigam Limited (JUSNL) for construction of 400 KV D/C Transmission Line from PTPS to Bero in Ranchi and Ramgarh districts of Jharkhand, subject to the following conditions and stipulations:-

एस. के. शशि/S.K. Shashi
उपमहाप्रबंधक/DGM (JCP)
पावर ग्रिड
राँची/Ranchi

- (1) Legal status of the forest land diverted shall remain unchanged.
- (2) **Compensatory afforestation:** Compensatory afforestation shall be taken up by the Forest Department over 22.5 ha. degraded forest land (Site - Masiatu, Thana No.Bera/89 under Ranchi FD and Site - Deoia, Thana No.Patratu/48 under Ramgarh FD) at the cost of the User Agency. As far as possible, a mixture of local native species shall be planted and monoculture of any species should be avoided.
- (3) The State Government shall ensure that compliance of Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 has been completed in accordance with the relevant Rules and Guidelines issued by the MoEF&CC, GoI in this regard.
- (4) User Agency shall restrict the felling of trees to minimum number in the diverted forest land and the trees shall be felled under the strict supervision of the State Forest Department, and the cost of felling of trees shall be deposited by the User Agency with the State Forest Department.
- (5) The boundary of the diverted forest land shall be demarcated on the ground at the project cost, by erecting four feet high reinforced cement concrete pillars, each inscribed with its serial number, DGPS coordinates, forward and back bearing and distance from adjoining pillars etc. The pillars should be spaced at about 50 meter and each pillar should be clearly visible from pillars on both sides.
- (6) The User Agency shall comply with the guidelines for laying transmission lines through forest areas issued by Ministry vide letter No.7-25/2012-FC dated 5.5.2014 and 19.11.2014.
- (7)
 - a) The layout plan of the proposed diversion of the forest land shall not be changed without prior approval of Central Government.
 - b) No additional or new path will be constructed inside the forest area for transportation of construction materials for execution of the project work.
 - c) No labour camp shall be established inside the forest land.
 - d) The User Agency shall provide alternate fuels preferably LPG to the labourers and the staff working at the site so as to avoid any damage and pressure on the nearby forest areas.
- (8)
 - a) The diverted forest land shall not be used for any purpose other than that specified in the project proposal.

b) The period of diversion under this approval shall be co-terminus with the period of the project life.

c) The diverted forest land shall under no circumstances be transferred to any other agencies, department, or person without prior approval of the Central Government.

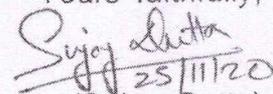

(9) The User Agency and the State Government shall ensure compliance to provisions of all the Acts, Rules, Regulations, Guidelines, Hon'ble Court Order(s) and National Green Tribunal Order(s) pertaining to this project, if any, for the time in force, as applicable to the project.

(10) Violation of any of these conditions will amount to violation of Forest (Conservation) Act, 1980 and action would be taken as per the MoEF&CC Guideline F. No. 11-42/2017-FC dt 29/01/2018.

(11) Any other condition that the Ministry of Environment, Forest & Climate Change may stipulate from time to time in the interest of conservation, protection and development of forests and wildlife.

2. As has been mentioned at Para-2 of the Stage-II approval, this approval for diversion of forest land is subject to the fulfillment of stipulated conditions mentioned in this approval letter. Therefore, in the event of non-compliance of any of the conditions laid out in this approval letter, the Regional Office of Ministry of Environment, Forest & Climate Change may withdraw the said approval for diversion of the forest land and stop the non-forest activity being carried out in the forest land besides initiating the legal action as per provisions of Forest (Conservation) Act, 1980.

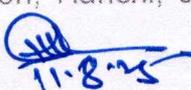

Yours faithfully,

✓ The Addl. Chief Secretary,
Department of Forests, Environment & Climate Change,
Government of Jharkhand,
Nepal House, Ranchi - 834002.

Sub: Final (Stage-II) approval of Central Government under Forest (Conservation) Act 1980 for proposed diversion of 13.221 ha of forest land for construction of 220 KV D/C Transmission Line from Hatia, Ranchi to Namkum (JSEB) in favour of JUSNL in Ranchi district of Jharkhand - reg.

Sir,

I am directed to refer to the State Govt. letter No.Van Bhumi-15/2015-4431/Va.Pa. dated 23.09.2016, wherein prior approval of Ministry of Environment, Forest and Climate Change for diversion of 13.221 ha of forest land for construction of 220 KV D/C Transmission Line from Hatia, Ranchi to Namkum (JSEB) in favour of JUSNL in Ranchi district of Jharkhand, was sought in accordance with Section-2 of the Forest (Conservation) Act, 1980. After due consideration of the proposal of the State Government, the 'in-principle' approval of the Central Government for diversion of the said forest land was accorded vide this office letter of even number dated 31.10.2018 subject to fulfillment of certain conditions. The State Government of Jharkhand vides their letter No.Van Bhumi-15/2015-1360/Va.Pa. dated 25.5.2021 have furnished compliance report in respect of the relevant conditions stipulated in the in-principle approval for grant of final approval.

In this connection, on the basis of the compliance report under reference, the **final approval** of the Central Government under Section 2 of the Forest (Conservation) Act, 1980 is hereby accorded for diversion of 13.221 ha of forest land for construction of 220 KV D/C Transmission Line from Hatia, Ranchi to Namkum (JSEB) in favour of JUSNL in Ranchi district of Jharkhand, subject to the following conditions and stipulations:-

(1) Legal status of the forest land diverted shall remain unchanged.

एस. के. शशि/S.K. Shashi
उपमहाप्रबंधक/DGM (JCP)
पावरग्रिड/POWER GRID
राँची/Ranchi

- (2) **Compensatory afforestation:** Compensatory afforestation shall be taken up by the Forest Department over 30.88 ha. degraded forest land (Village - Childri & Ghagra, Thana - Bero, Thana No.47 & 16, Block - Bero under Ranchi FD) at the cost of the User Agency. As far as possible, a mixture of local native species shall be planted and monoculture of any species should be avoided.
- (3) The State Government shall ensure that compliance of Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 has been completed in accordance with the relevant Rules and Guidelines issued by the MoEF&CC, GoI in this regard.
- (4) User Agency shall restrict the felling of trees to minimum number in the diverted forest land and the trees shall be felled under the strict supervision of the State Forest Department, and the cost of felling of trees shall be deposited by the User Agency with the State Forest Department.
- (5) The boundary of the diverted forest land shall be demarcated on the ground at the project cost, by erecting four feet high reinforced cement concrete pillars, each inscribed with its serial number, DGPS coordinates, forward and back bearing and distance from adjoining pillars etc. The pillars should be spaced at about 50 meter and each pillar should be clearly visible from pillars on both sides.
- (6) Width of RoW for the Transmission Line shall be limited to 35 m.
- (7) The User Agency shall install circuit breakers at suitable places besides maintaining necessary ground clearance to prevent electrocution of wild animals especially the elephants.
- (8) To minimize the felling for construction of Transmission Line, User Agency shall comply with the following guidelines:
 - a) The normal width clearance below each conductor or conductor bundle in case of 400 KV line will be 3 m only. However in areas falling under Elephant Reserve in order to prevent electrocution of elephants in view Ministry's guideline dated 19.11.2014, at least 6 m additional clearance shall be provided over and above minimum clearance (as stipulated under Central Electricity Authority Measures relating to safety & Electricity Supply Regulations, 2010) above the ground from the lowest conductor of the Transmission Line. The trees on such strips may be felled but after stringing work is completed, the natural regeneration will be allowed to come up.

- b) One outer strip may be left clear to permit maintenance of the Transmission Line.
- c) In the remaining width the Right of Way felling/ pollarding/ pruning of trees will be done with the permission of the local Forest Officer whenever necessary to maintain the electrical clearance. Trees shall be allowed to be felled or lopped to the extent required, for preventing electrical hazards by maintaining the minimum 4.6 meter clearance between conductors and trees. The sag and swing of the conductors are to be kept in view while working out the minimum clearance mentioned as above.
- d) The Scheme for creation and maintenance of plantation of dwarf species (preferably medicinal plants) in the Right of Way under the Transmission Line, as prepared by the State Forest Department (for which funds have to be provided by the User Agency) shall be implemented from the funds provided by the User Agency.
- e) In case a portion of the Transmission Line to be constructed is located in hilly areas, where adequate clearance is already available, trees shall not be cut.
- (9) The user agency in consultation with the State Forest Department shall create and maintain alternate habitat/ home for the avifauna, whose nesting trees are to be cleared in the project. Bird nests artificially made out of eco-friendly materials shall be used in the area, including forest area and human settlements adjoining the forest area being diverted for the project.
- (10) The layout plan of the proposed diversion of the forest land shall not be changed without prior approval of Central Government.
- (11) a) No additional or new path will be constructed inside the forest area for execution of the project work.
b) No labour camp shall be established inside the forest land.
c) The User Agency shall provide alternate fuels preferably LPG to the labourers and the staff working at the site so as to avoid any damage and pressure on the nearby forest areas.
- (12) a) The diverted forest land shall not be used for any purpose other than that specified in the project proposal.
b) The period of diversion under this approval shall be co-terminus with the period of the project life.

c) The diverted forest land shall under no circumstances be transferred to any other agencies, department, or person without prior approval of the Central Government.

- (13) The User Agency and the State Government shall ensure compliance to provisions of all the Acts, Rules, Regulations, Guidelines, Hon'ble Court Order(s) and National Green Tribunal Order(s) pertaining to this project, if any, for the time in force, as applicable to the project.
- (14) Violation of any of these conditions will amount to violation of Forest (Conservation) Act, 1980 and action would be taken as per the MoEF&CC Guideline F. No. 11-42/2017-FC dt 29/01/2018.
- (15) Any other condition that the Ministry of Environment, Forest & Climate Change may stipulate from time to time in the interest of conservation, protection and development of forests and wildlife.

2. As has been mentioned at Para-2 of the Stage-II approval, this approval for diversion of forest land is subject to the fulfillment of stipulated conditions mentioned in this approval letter. Therefore, in the event of non-compliance of any of the conditions laid out in this approval letter, the Regional Office of Ministry of Environment, Forest & Climate Change may withdraw the said approval for diversion of the forest land and stop the non-forest activity being carried out in the forest land besides initiating the legal action as per provisions of Forest (Conservation) Act, 1980.

No. FP/JH/TRANS/33007/2018/ 4716

Date: 30th June 2021

To

The Addl. Chief Secretary,
Department of Forests, Environment & Climate Change,
Government of Jharkhand,
Nepal House, Ranchi - 834002.

Sub: Final (Stage-II) approval of Central Government under Forest (Conservation) Act 1980 for proposed diversion of 73.166 ha forest land for construction of 400 KV D/C Essar Thermal Power Plant to Latehar Transmission Line in favour of JUSNL in Latehar district of Jharkhand - reg.

Sir,

I am directed to refer to the State Govt. letter No.Van Bhumi-34/2019-2648/Va.Pa. dated 16.7.2019, wherein prior approval of Ministry of Environment, Forest and Climate Change for diversion of 73.166 ha forest land for construction of 400 KV D/C Essar Thermal Power Plant to Latehar Transmission Line in favour of JUSNL in Latehar district of Jharkhand, was sought in accordance with Section-2 of the Forest (Conservation) Act, 1980. After due consideration of the proposal of the State Government, the 'in-principle' approval of the Central Government for diversion of the said forest land was accorded vide this office letter of even number dated 22.08.2019 subject to fulfillment of certain conditions. The State Government of Jharkhand vides their letter No.Van Bhumi-34/2019-1651/Va.Pa. dated 25.6.2021 have furnished compliance report in respect of the relevant conditions stipulated in the in-principle approval for grant of final approval.

In this connection, on the basis of the compliance report under reference, the **final approval** of the Central Government under Section 2 of the Forest (Conservation) Act, 1980 is hereby accorded for diversion of 73.166 ha forest land for construction of 400 KV D/C Essar Thermal Power Plant to Latehar Transmission Line in favour of JUSNL in Latehar district of Jharkhand, subject to the following conditions and stipulations:-

- (1) Legal status of the forest land diverted shall remain unchanged.

11.8.21

एस. के. शशि/S.K. Shashi
उपमहाप्रबंधक/DGM (JCP)
पावरग्रिड/POWER GRID
राँची/Ranchi

- (2) **Compensatory afforestation:** Compensatory afforestation shall be taken up by the Forest Department over 147 ha. degraded forest land (Site - Soparam, Tehsil - Balumath, Compartment No.1,2, 109, 111, 112, 113; Site - Chumba, Tehsil - Balumath, Compartment No.153, 154, 155; Site - Chiro, Tehsil - Chandwa, Compartment No.11, 505, 1100, 1099 under Latehar FD) at the cost of the User Agency. As far as possible, a mixture of local native species shall be planted and monoculture of any species should be avoided.
- (3) The State Government shall take actions for the violations under reference as prescribed under sub para (iii) and (iv) of Para 3(B) of the Ministry's letter No.11-42/2017-FC dated 29.01.2018.
- (4) The State Government shall ensure that compliance of Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 has been completed in accordance with the relevant Rules and Guidelines issued by the MoEF&CC, Gol in this regard.
- (5) User Agency shall restrict the felling of trees to minimum number in the diverted forest land and the trees shall be felled under the strict supervision of the State Forest Department, and the cost of felling of trees shall be deposited by the User Agency with the State Forest Department.
- (6) The boundary of the diverted forest land shall be demarcated on the ground at the project cost, by erecting four feet high reinforced cement concrete pillars, each inscribed with its serial number, DGPS coordinates, forward and back bearing and distance from adjoining pillars etc. The pillars should be spaced at about 50 meter and each pillar should be clearly visible from pillars on both sides.
- (7) Width of RoW for the Transmission Line shall be limited to 46 m.
- (8) The User Agency shall install circuit breakers at suitable places besides maintaining necessary ground clearance to prevent electrocution of wild animals especially the elephants.
- (9) To minimize the felling for construction of Transmission Line, User Agency shall comply with the following guidelines:
 - a) The normal width clearance below each conductor or conductor bundle in case of 400 KV D/C line will be 3 m only. However in areas falling under Elephant Reserve in order to prevent electrocution of elephants in view Ministry's guideline dated 19.11.2014, at least 6 m additional

clearance shall be provided over and above minimum clearance (as stipulated under Central Electricity Authority Measures relating to safety & Electricity Supply Regulations, 2010) above the ground from the lowest conductor of the Transmission Line. The trees on such strips may be felled but after stringing work is completed, the natural regeneration will be allowed to come up.

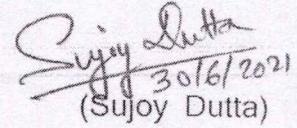

- b) Outer strip may be left clear to permit maintenance of the Transmission Line.
 - c) In the remaining width the Right of Way felling/ pollarding/ pruning of trees will be done with the permission of the local Forest Officer whenever necessary to maintain the electrical clearance. Trees shall be allowed to be felled or lopped to the extent required, for preventing electrical hazards by maintaining the minimum 5.5 meter clearance between conductors and trees. The sag and swing of the conductors are to be kept in view while working out the minimum clearance mentioned as above.
 - d) The Scheme for creation and maintenance of plantation of dwarf species (preferably medicinal plants) in the Right of Way under the Transmission Line, as prepared by the State Forest Department (for which funds have to be provided by the User Agency) shall be implemented from the funds provided by the User Agency.
 - e) In case a portion of the Transmission Line to be constructed is located in hilly areas, where adequate clearance is already available, trees shall not be cut.
- (10) The layout plan of the proposed diversion of the forest land shall not be changed without prior approval of Central Government.
- (11) a) No additional or new path will be constructed inside the forest area for execution of the project work.
b) No labour camp shall be established inside the forest land.
c) The User Agency shall provide alternate fuels preferably LPG to the labourers and the staff working at the site so as to avoid any damage and pressure on the nearby forest areas.
- (12) a) The diverted forest land shall not be used for any purpose other than that specified in the project proposal.
b) The period of diversion under this approval shall be co-terminus with the period of the project life.
c) The diverted forest land shall under no circumstances be transferred to any other agencies, department, or person without prior approval of the Central Government.

11.8.15

- (13) The User Agency and the State Government shall ensure compliance to provisions of all the Acts, Rules, Regulations, Guidelines, Hon'ble Court Order(s) and National Green Tribunal Order(s) pertaining to this project, if any, for the time in force, as applicable to the project.
- (14) Violation of any of these conditions will amount to violation of Forest (Conservation) Act, 1980 and action would be taken as per the MoEF&CC Guideline F. No. 11-42/2017-FC dt 29/01/2018.
- (15) Any other condition that the Ministry of Environment, Forest & Climate Change may stipulate from time to time in the interest of conservation, protection and development of forests and wildlife.

2. As has been mentioned at Para-2 of the Stage-II approval, this approval for diversion of forest land is subject to the fulfillment of stipulated conditions mentioned in this approval letter. Therefore, in the event of non-compliance of any of the conditions laid out in this approval letter, the Regional Office of Ministry of Environment, Forest & Climate Change may withdraw the said approval for diversion of the forest land and stop the non-forest activity being carried out in the forest land besides initiating the legal action as per provisions of Forest (Conservation) Act, 1980.

Yours faithfully,

30/6/2021
(Sujoy Dutta)

Technical Officer (Forestry)

दिनांक: 01.08.2025

सेवा में,

श्रीमान वन प्रमंडल पदाधिकारी
वन प्रमंडल- लातेहार, झारखण्ड।

विषय :- 400 के.वी. डी/सी पतरातू - लातेहार पारेषण लाइन निर्माण हेतु वन भूमि अपयोजन प्रस्ताव से सम्बंधित DGPS Maps समर्पित करने के संबंध में।।

- प्रसंग :- 1) भवदीय पत्रांक 1178/लातेहार, दिनांक 28.05.2025 ।
2) पावरग्रिड पत्र संदर्भ सं.: ई.आर.-1/जे.सी.पी./राँची/लातेहार-पतरातू/98, दि. 15.07.2025 ।
3) पू.क्षे.-1/राँची/जे.सी.पी./प.ला.पा.ला/125, दिनांक: 31.07.2025

महाशय,

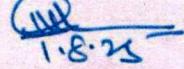

उपर्युक्त विषयक एवं प्रसंगाधीन पत्र के आलोक में कहना है कि वन भूमि विवरणी एवं CS Map की सत्यापित प्रति श्रीमान के कार्यालय से उपर्युक्त प्रसंगाधीन पत्र- (1) के माध्यम से निर्गत किया गया । तदोपरान्त, सम्पूर्ण वन प्रस्ताव को श्रीमान के कार्यालय को प्रसंगाधीन पत्र- (2) के माध्यम से 08 (आठ) प्रतियों में समर्पित किया गया था । श्रीमान के कार्यालय द्वारा समर्पित वन प्रस्ताव के जाँचोपरांत दिनांक 22.07.2025 के मिटिंग में CS Maps का DGPS Maps समर्पित करने का निर्देश दिया गया था ।

अतः प्राप्त निर्देश के अनुसार सत्यापित CS Maps का DGPS Maps का 01 (एक) समुच्चय रंगीन प्रतियों में श्रीमान के अवलोकनार्थ प्रसंगाधीन पत्र- (3) के माध्यम से समर्पित किया गया था तथा शेष 07 (सात) समुच्चय रंगीन प्रतियों में इस पत्र के साथ समर्पित किया जा रहा है ।

श्रीमान के अग्रेत्तर कारवाही हेतु सादर प्रेषित ।

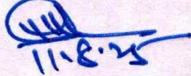

सधन्यवाद ।

भवदीय,

Full Title of the Project:

400 kV D/c Patratu-Latehar Transmission line

NECESSITY OF THE PROJECT

The **400 kV Patratu-Latehar Transmission Line** is a critical component of Jharkhand power infrastructure and will evacuate generated electricity from the Patratu Vidut Urja Nigam Ltd. (PVUNL) i.e. **Patratu Super Thermal Power Project (PSTPP)** of 3x800 MW capacity. Its optimum capacity to carry power is 2 x 515 MW, i.e. 1030 MW.

Here are some reasons why this transmission line is required:

- **Power Evacuation:** The **Patratu-Latehar** transmission line is planned to evacuate power from the Patratu generating stations, particularly from the Patratu Thermal Power Station (PVUNL), embedded in the Jharkhand power network, to the national grid with a total capacity of 4000 MW (3 x 800 MW phase I and 2 x 800 MW phase II). Jharkhand state shall draw 85 % of the power generated from the project (PVUNL).

It is to mention that the 400 kV Patratu -Latehar Double circuit transmission line is part of planned network comprising of 400 kV, 220 kV, 132 kV transmission lines and substations.

- **Reliability and Stability:** The said transmission line will improve the reliability and stability of the power system scenario in Jharkhand especially around Latehar, Ramgarh, Lohardaga and Ranchi area ensuring a reliable electricity supply to meet the growing demand.
- **Economic Growth:** By providing a reliable and efficient power transmission infrastructure, the Latehar-Patratu transmission line will support economic growth in the region by enabling industries, businesses, and households to access electricity without interruptions. It will also significantly enhance the Total transmission capacity (TTC) and Available Transmission Capacity (ATC) of the network from PVUNL power generating station to the National Grid via the Latehar -Chandwa 400 kV D/c line. Any surplus power available from the generation shall benefit other Bulk Consumers inside/outside of Jharkhand State under the Open Access for Utilities. This results in enhancing revenue for the Jharkhand State assembly as well. Absence of the Patratu -Latehar Double Circuit transmission line or its any further delay in completion shall restrict the total installed power generation from the project with reliability leading to congestion and uneconomical natural resource utilisation.
- **Reducing Transmission Losses:** The new transmission line will help reduce transmission losses, ensuring that more power reaches the end-users, thereby improving the overall efficiency of the power system.
- **Meeting Energy Demand:** With the increasing demand for electricity in Jharkhand, the Latehar-Patratu transmission line will play a crucial role in meeting this demand and supporting the state's development and growth.

The Latehar-Patratu transmission line is a vital infrastructure project that will contribute to the overall development of the power sector in Jharkhand, promoting economic growth, energy security, and sustainability. Hence, this transmission line shall be a vital part of the power evacuation of the PUVNL generating station, and construction of the line is essential.

Full Title of the Project:

400 kV D/c Patratu-Latehar Transmission line

ALTERNATIVE ROUTE ALIGNMENT

Head	Alternative Route-I (RED)	Alternative Route-II (BLUE)	Alternative Route-III (PINK)
Line Length	110 Kms.	116 Kms	123 Kms
Forest Area (ha.)	127	156	168

From above comparative statement it is observed that the **Alternative Route-I** is the best feasible option as compared with other routes due to following :

- Involves Minimum Forest area.
- Minimum Tree Felling.
- Proper approach/connectivity with roads for construction as well as maintenance afterwards.

Hence, Alternate Route-I, it has been selected on the above grounds and involvement of minimum forest area.
