

LAND SUITABILITY CERTIFICATE FOR PROPOSED CA LAND

Project: Construction of 132 kV D/C Pare HEP to Lakhimpur Transmission line.

Forest area proposed for diversion under Sagalee Forest Division: 9.68 ha.

This is to certify that **19.5 ha (Double of proposed forest area for diversion)** of degraded forest land identified in Doimukh RF under Sagalee Forest Division near Hoj village, Toru subdivision which is proposed for Compensatory afforestation against the diversion of 9.68 ha of forest land by Vapi II-North Lakhimpur Transmission Ltd. is ***suitable for plantation***. The actual tree density in the proposed CA site is very low with presence of a few wild bamboos, bananas, other small trees etc. Hence the land is selected for raising compensatory afforestation against the forest land proposed for diversion.
