**Note Containing Justification for locating the Project**  
**in Revenue Forest Land at Village Putkapuri in**  
**Kondatarai**

The proposal to establish 132/33 KV Sub-station at Kondatarai is approved By honorable Electricity Regulatory Committee (C.G. Govt) in respective of providing uninterrupted and better quality electricity to Kondatarai and near by areas which is in Raigarh Distt. an A.L.W. affected area. This project will also provide Electrical Connectivity to upcoming industries.

In present scenario power supply to Kondatarai and near by areas is through 33/11 KV LT line Raigarh, the length of the line is too long hence, interruptions and line losses are much more.

This project will help to overcome all the drawbacks of 33/11 KV line and can also provide employment to the local workers during its construction. Since the proposed land is best located for the incoming and outgoing of the transmission line with a proper road connectivity, No other alternative place is found suitable for this purpose. Hence the project is formulated at the proposed land.
