

PARAWISE REPLIES TO THE QUERIES RAISED DATED 09.07.2021

Queries raised	Replies by User Agency
1. B-2.3 Village wise breakup	
<ul style="list-style-type: none"> Only one (Nandihalli) village is mentioned including (forest & non forest villages) and a Survey Number details are not mentioned in this item. <p>1. Please specify the names of all villages and then provide the village-wise as well as individual survey number-wise breakup (without clubbing them) of forest as well as non-forest land required for the entire project in this Item.</p> <p><i>[Note: In case of non-forest lands, only the names of villages may be provided at present. Survey number details will be sought only if required during processing]</i></p>	<ul style="list-style-type: none"> Since the proposed road is situated only in Hulikunte Village, we have updated the village name as Hulikunte. (Hulikunte village is also called as Nandihalli Village) <p>1. As per the DGPS Map the forest & non-forest area of proposed road is situated only in Hulikunte village.</p>
2. B-2.4 Component wise breakup	
<ul style="list-style-type: none"> Only one component (Road) has been shown as the Project components for Forest & Non-Forest land. <p>1. Please ensure that the forest as well as non-forest land Requirement totals in this Item match exactly (including decimals) with the corresponding figures given in other relevant Items.</p> <p>2. Please specify all individual components of the Project and then provide the forest and non-forest extent required for each component (without clubbing).</p>	<p>We have uploaded Component wise (Road) breakup with individual component for forest and non-forest area.</p>
3. C(ii)(a) KML file of proposed land	
<ul style="list-style-type: none"> One KML is uploaded. Main KML file named as R2 Hulikunte.kml 20210605.kml. Sub files named as Hulikunte [(sub-files suggest no name)] and instead of component name. Entire Project alignment is marked and in some area shows gap a between forest lands. As Per KML Measurement Tool the forest strip shows an extent of (5.7214 + 0.5917 = 6.3131 ha) including both polygon. Provide Component wise forest & Non forest land KML with proper Component Naming. 	<p>We have uploaded Component/Segment wise KML for both forest and non-forest land with proper file name. There are total 3 segments in which two segments are in forest land and one segment is in non-forest land. One more segment comes within the lease area for which FC proposal is already in process for approval at MoEF&CC, GoI. <i>[Proposal No: FP/KA/MIN/45164/2020]</i></p>

<p>1. Please upload the following KML files (with polygon feature inbuilt 'measurement' option and proper Identifiable File names) of entire project alignment (all components).</p> <ul style="list-style-type: none"> • KML Polygons of forest land proposed for diversion show in a (different colour with proper naming). • KML File (either Polygon or Line feature) for entire alignment in a (different colour with proper naming). <p>2. Please ensure that the KML Polygons match with the GPS points of all corners of forest land proposed for diversion and also with the ground features on satellite imagery.</p>	<p>1. KML files uploaded with polygon feature in-build measurement option with proper file names.</p> <ul style="list-style-type: none"> • KML Polygons of forest land proposed for diversion is shown in a different colour with proper naming. • KML File (Polygon) for entire alignment in a (different colour with proper naming). <p>2. KML uploaded in the portal and is complied as per the said conditions.</p>
<p>4. C(iv) Scanned copy of the Geo-referenced map of the forest land proposed to be diverted prepared by using GPS or Total Station</p>	
<ul style="list-style-type: none"> • Sketch map is uploaded along with adjoining (Hulikunte, Ranajithapura & Narasingapura) village map is also uploaded, but in FORM-A in Item No. B-2.3 Village wise breakup (Nandihalli) village is mentioned. • ML Boundary GPS readings are provided in <i>Degree Minutes Seconds</i> but they are in non-convertible form instead of Decimal Degree format, Road GPS readings are not provided on maps and also in <u>Additional Information Details</u>. • Hence GPS readings enlisted MS Excel to convertible PDF in "Degree Decimals" with datum WGS-84 format is required for technical analysis. <p>1. Please upload the following two types of Geo-referenced maps (both merged into a single PDF file) showing the forest area proposed for diversion (as well as non-forest area, if any, with the two kinds of segments shown in two different colors) in the given village limits on the following two scales.</p> <ol style="list-style-type: none"> Map-I: On ordinary village map scale 1:7920) Map-II: At a much larger scale (with greater zoom) for a detailed view of the project area. 	<ul style="list-style-type: none"> • Since the proposed road is situated only in Hulikunte Village, we are uploaded the village name as Hulikunte. • Road GPS co-ordinates are uploaded in the additional information section in MS Excel to convertible PDF in "Degree Decimal" with datum WGS-84. <p>1. Two Geo-referenced maps are uploaded, one with ordinary village scale (1:7920) and the other with larger scale (greater zoom).</p>

<p>2. Please ensure that each of the maps:</p> <ol style="list-style-type: none"> Upload the original scanned map (not a photocopy) Has a proper map index & Map title. Is duly ink-signed by User Agency. Shows all survey numbers and boundaries in and around the project area clearly. Shows the entire alignment (forest and non-forest) of the project in the village limits in two different colors. Provide the GPS readings (in Datum: WGS-84; in Degree, Decimals) of all corners/turning points of the forest area for diversion (as well as at every 20 meters interval along the curves within forest limits). <i>[Note- After Stage-I approval, RCC pillars will have to be provided at all these GPS points. However, temporary stone pillars are sufficient for field verification at present].</i> GPS points (series number wise) prominently should be marked on corresponding corner points of forest area on the map. 	<p>2. All the Maps uploaded is complied as per the said conditions.</p>
<p>I(i) Whether the project or a part thereof is located in any Protected Area or their Eco sensitive zone?</p>	<p>No</p>
<p>L(v). Scanned copy of the map of the land identified for creation of Compensatory Afforestation prepared by using GPS or Total Station.</p>	
<ul style="list-style-type: none"> In Item No. L(iv)(a) village is mentioned as Siruguppa instead of Mittesuguru village. Part Village Map is uploaded & complete village map needs to be uploaded in this item. The proposed CA land should be overlaid on Cadastral/TIFF (Village) Map. GPS readings are provided in Degree decimals and also over lapping with uploaded KML file. <p>1. Please upload the following two types of Geo-referenced maps <i>(both merged into a single PDF file)</i> showing the forest area proposed for diversion <i>(as well as non-forest area, if any, with the two kinds of segments shown in two different colors)</i> in the given village limits on the following two scales.</p> <ol style="list-style-type: none"> Map-I: On ordinary village map scale 1:7920) 	<ul style="list-style-type: none"> New CA Land located in Metri Village of Kampli Taluk, Ballari District is updated in the portal and all the related documents are uploaded in additional information section. <p>1. Two Geo-referenced maps are uploaded, one with ordinary village scale (1:7920) and the other with larger scale (greater zoom).</p>

<p>b. Map-II: At a much larger scale (with greater zoom) for a detailed view of the project area.</p> <p>2. Please ensure that each of the maps:</p> <p>a. Upload the original scanned map (not a photocopy)</p> <p>b. Has a proper map index & Map title.</p> <p>c. Is duly ink-signed by User Agency.</p> <p>d. Shows all survey numbers and boundaries in and around the project area clearly.</p> <p>e. Shows the entire alignment (forest and non-forest) of the project in the village limits in two different colors.</p> <p>f. Provide the GPS readings (in Datum: WGS-84; in Degree, Decimals) of all corners/turning points of the forest area for diversion (as well as at every 20 meters interval along the curves within forest limits). <i>[Note- After Stage-I approval, RCC pillars will have to be provided at all these GPS points. However, temporary stone pillars are sufficient for field verification at present].</i></p> <p>GPS points (series number wise) prominently should be marked on corresponding corner points of forest area on the map.</p>	<p>2. All the Maps uploaded as per the said conditions.</p>
Additional information	
<p>1. Copy of RTC containing mutation in favour of the Forest Department in respect of the forest area proposed to be diverted may be uploaded.</p> <p>2. Upload the withdrawal request in the web portal for the Proposal No. FP/KA/ROAD/143159/2021.</p>	<p>1. Copy of RTC containing mutation has been uploaded in the additional information section.</p> <p>2. Withdrawal request letter has been uploaded in additional information section.</p>
