Shimla Rural Division,
HPPWD Dhamsi

Copy forwarded to the Assistant Engineer, HPPWD Sub Division Jalog for information and necessary action.

Executive Engineer,
Shimla Rural Division,
HPPWD Dhamsi.

JUSTIFICATION FOR REDUCING THE TREES FOR CONSTRUCTION OF ROAD

The 0.8637 hac. forest land is required by the HPPWD for construction of road from Ogli to Suma km 0/00 to 1/510, mostly to be part of a forest land coming in the proposed alignment of the road. All alternative proposals have been explored at site to reducing the forest land & felling of trees to be affected for construction of this proposed road because the change affects the willingness of the land owners in the shape of extra land involvement whose land is coming in the alignment of this road have left very less portion of land in their possession and the peoples of economically weaker sections & are unable to donate extra land for construction of this road. However, the villagers have already donated 0.0436 hector of their land for construction of this road after convinced them very hardly by this department. The villagers face various problems as they have to take uphill to reach their village and is very difficult for them to transport their essential commodities up to their villages in the absence of the road, especially in view of rugged terrain and steep slopes. At present in the absence of motor able road the people of those villages are facing great difficulties in carrying their cash crops timely to the market. They have to pay huge amounts on account of manual / mule carriage of cash crops and essential commodities, the local product cannot be sent to the market well in time and the growers cannot get the proper values of their cash crops with the result that the people of the area are becoming poor to poorer day by day. Hence the road link to these villages has been proposed by the construction of said road.

Keeping in view the facts narrated above, the proposal under consideration is only suitable alignment to connect the villages Bagi & Summa with road facility. The list of trees which are required to be felled and retained has been attached for ready reference.
