Subject : - Report for proposal of Tlawnghnar Recharging Dam for Aug & Imp of Zobawk WSS

Ref :- 1) No. B-22015/5/2022-FC/PCCF/25 Dt. 18th August, 2022
2) No. W-11013/10/22-SE(L)/PHED/25 Dt. 5th August, 2022

Sir,

With reference to your letter as referred above, I have the honour to state that in view of the current situation of water crisis at Zobawk areas, there are no any other alternative water source to propose to solve their hardships except Tlawnghnar gravity source. The reason for choosing present propose dam site is that the dam structure will be located on the boundary line of riverine reserve forest and the Local Administration Department Park and the construction works would cause no harm on both sides. And also, selection of present site was done due to economical reason for its narrow dam width without compromising with storage capacity that will be more beneficial for the people of Zobawk inhabitants.

Your faithfully,

(NGENTLUANGA)
Superintending Engineer, PHED
