UNDERTAKING

Bangalore Water Supply and Sewerage Board has taken up Cauvery Water Supply Scheme, Stage V, Project with assistance from Japan International Co-operation Agency (JICA). To the Best of our knowledge, we herewith confirm that the Alignment and Project components of Contract Package-09, pipeline alignment along the Eastern side (Vajarahalli Junction to Kadugodi GLR) and Contract package-12, Reservoirs on Eastern side are not falling on the forest land except for the proposed Kadugodi GLR.

As the Length of the pipeline alignment is very long hence providing details of individual Forest and Non Forest Land, village wise, Revenue Survey Numbers wise breakup in the Part-I of Form-A FC Proposal is difficult and very laborious. However, in any other location of this scheme crosses the Forest area it will be applied separately and get prior approval before starting the work.
