FORMAT-B
CA LAND SUITABILITY CERTIFICATE UNDER FCA 1980

[Cases where proposed non-forest CA land cannot support the prescribed planting density of 1000 plants per hectare and it is necessary to plant the balance number of plants in degraded forest land (<40% canopy density) as per working plan prescriptions in accordance with Government of India FC Guidelines F.No.11-423/2011-FC dated 08-11-2017]

In compliance of the procedure established for diversion of forestland for non-forest purpose through the forest Conservation Rules 2003 and Guidelines framed under Forest Conservation Act 1980, the following is Certificate.

1. The non-forest land parcel(s) [Table 1] Proposed by **M/s Vedanta limited** for raising compensatory afforestation (CS) in Forest land diversion proposal number **FP/KA/MIN/51389/2020** for diversion of **9.547** Hectare of forest land in **Chitradurga** division(s) has/have been inspected by me on 24-03-2021 (date).
2. The said non-forest CA land parcel(s) is/are suitable for raising compensatory afforestation in accordance with Government of India FC Guidelines F.No.11-423/2011-FC dated 08-11-2017 read with general FC Guidelines, and in case of Private Party User Agency, further as per Government of Karnataka Order No. FEE 82 FLL 2016 Dated 31-08-2016.
3. It is further reported that the said land parcel(s) has/have natural growth to major extent and therefore planting is not necessary. Moreover, there are high chances for damage of planted seedlings by herbivores like Elephant, Sambar deer, Spotted deer are observed in this area. However, the money reserved for plantation can be used to develop Grassland in the concerned parcel of land since, there is large herbivore population.
4. The KML file(s), Topo Map(s), Geo-referenced Map(s) & GPS readings of all corners of the proposed non-forest CA land parcel(s) have been uploaded by User Agency in PART-I of the proposal / are enclosed herewith.
5. The KML file(s), Topo Map(s), Geo-referenced Map(s) & GPS readings of all corners of the proposed degraded forest land parcel(s) are enclosed in PART-II.
6. Additional remarks, in any area is having wild animals so better to take compensatory afforestation in other division.
7. There is no double degraded government land in this area.
