**Justification of the proposal and project/scheme for which the forest land is required**

The proposed road/project length is 8 KM. It starts from 17<sup>th</sup> km of Udamanda-Sinau-Rauta PMGSY road to Nakhuliana-Pokhari. The project will give easy access to the people of villages dhauda, kimgair, kharki, chamethi and pokhari for their daily routine works. The project will give profit in access to market for agriculture produce. At present the women of the villages have to travel long distances for water, wood, fodder, etc, so after completion of the project the women will save their precious time and they will be able to give more time for overall development of their home and children. The project will be very beneficial in connecting school and colleges for overall development of the region. The project will give opportunity in opening new schools and medical centres.
