

HIMACHAL ROAD TRANSPORT CORPORATION RAMPUR

NO:-HRTC/RMP/3- (B.S Nankhari)/2024 3390-3392

dt 13/09/2024.

To

The Divisional Forest Officer,
Rampur Forest Division.

Sub:- Diversion of 0.3534 Ha. of forest land for construction of HRTC Bus Stand at Nankhari within the jurisdiction of Rampur Forest Division.

Sir,

This is with reference to the subject cited above. In this context this is to inform you that the EDS raised by the Forest Department has been attended and para wise reply for the same is as under:-

Sr. No.	Observation	Reply
1.	In the online Part-I at S. No. B-2.4 (component wise breakup of the Forest land) has been shown as 0.3504 ha. instead of 0.3534 Ha. This contradiction needs to be clarified.	In the online Part-I at S. No. B-2.4 (component wise breakup of the Forest land) the proposed area for diversion has been rectified.
2.	The alternative and components have not been marked in KML file; also DGPS map of proposed site should be prepared accordingly.	The revised KML file with DGPS map has been uploaded in online Part-I
3.	The proposal is non-site specific, hence justification for locating the project should be uploaded at Para D(i) of Part-I as per the guidelines mentioned in Chapter-I of handbook of GoI mentioned at Point No. 1.15.	The Bus Stand plays an important role in communication and Public Transport. A bus station is a predetermined place or structure where village/city buses stop to pick up or drop off passengers. It is further stated that the land holdings in Himachal Pradesh is very less and land acquisition is not possible. Moreover, in this region the private land under the ownership of local people is very less and being a agriculture and horticulture produce zone the people are dependent on their land holdings for their livelihood and they are not willing in providing their land to the said project and no other non-forest land is available for

the said project in the region. The construction of Bus Stand at Nankhari Tehsil Rampur Bushahr Distt. Shimla will provide a single platform for various connecting villages of Tehsil Rampur, Kumarsain and Nankhari and the remote areas. To overcome the problem of transport facility in the region the construction of Bus Stand at Nankhari is essentially required. It will cater to the transportation needs of the local people for their daily routine. The area connected to Nankhari Bus Stand is agriculture and Horticulture produce zone. Hence, the land identified for the said project cannot be escaped, thus the project may be considered as site specific in public interest.
