Sub : Construction of Zonal Reservoirs of capacity 0.721Ml of Diameter 14.00Rm with 6.00m staging of GSWSS Phase III under JNnURM at Mawlai Mawroh Forest protected land adjacent to the PHE Water Reservoir - Permission Reg..

Sir,

In inviting a reference on the subject as referred to above, I am to inform that in implementation of GSWSS Phase III under JNnURM, construction of 1 (One) number zonal Reservoir of capacity 0.721Ml for storage of water is required to be taken up at an allotted Forest Protected Land at Mawlai Mawroh. The proposed Reservoir to be constructed by the side of an old existing Water Reservoir of the Department where enough space is still available and sufficient for construction of the Reservoir.

However, about 13 (thirteen) numbers of grown up trees located within the area of the land where permission for cutting and felling of the same is required from your end facilitating construction of the Reservoir.

A sketch map showing the area/location near the existing PHE Water Reservoir is attached herewith for favour of your early necessary action in the matter.

Thanking you.

Enclo : Sketch Map.

Yours Faithfully

(H.S. Nongkynrih)

Superintending Engineer (PHE)
Electrical Circle, Shillong.

Memo No.SE/PHE/Elect/TB:543(Pt-I)/2017-18/1400 A
