Sir,

The point wise reply of observations raised by your good office wide online Parivesh Portal dated 23-08-2024 is as under:-

Sr.No	Observations	Reply
1.	The mining plan has been approved in july, 2020. What happened during the last 4 years Whether mining is being already carried out.	The mining plan has been approved in July, 2020. And no mining is being done during the last 4 years. We will not be mining until we get consent to operate from pollution control board.
2.	FRA certificate pertains to year 2015. Is it still valid.	We discussed this with the Deputy Commissioner Mandi and he told us that the FRA certificate is valid till the proposed land is not increased or decreased, so the FRA certificate will always be valid.
3.	EC is yet not applied for.	We are in the process of EIA application.
4.	The CA area does not seem to be a DPF in KML file and the area seems to be very slopy.	Pertains your good office.
