महोदय,

उपरोक्त विषयान्तर्गत निवेदन है कि आपके पत्रांक 9045 दिनांक 25.08.2022 एवं भारत सरकार पर्यावरण, वन एवं जलवायु परिवर्तन मंत्रालय, क्षेत्रीय कार्यालय, जयपुर के ई.डी.एस. दिनांक 18.08.2022 का बिन्दुवार जवाब निम्नानुसार प्रस्तुत है :-

क्र.सं.	ई.डी.एस.	प्रतिउत्तर
i	Why 0.60 ha land is required for CHC ? As per health Misinstry Guidelines how much area actually required for CHC ? Attach a copy of lay out plan and guidelines.	Department of Medical, Health and Family welfare Govt. of Rajasthan vide letter no. F.5(Circular)/CE/Civil/2022-23/2906 date 04.08.2022 recommended 7000 sq. mt minimum land required for CHC copy of Circular & layout plan enclosed. We have proposed 0.60 ha. (ie 6000 sq. mt.) for the above project which is the minimum land required.
ii	Accordingly, the proposal has to be modified.	Proposal has alreday been submitted.
iii	As per DSS analysis, the proposed CA site in the instant proposal is having encroachment and settlment. Thus the CA sites need revision. Status of the encroachment shall also be submitted for the said encroached forest land.	As the mentioned land having an area of 3.25 ha. has been proposed for compensatory afforestation with the intent to carry out compensatory afforestation in the whole area with the removal of all encroachment and to protect the area from any further encroachment.
iv	The forest block is on the both side of the road a small and a big patch. The CHC is proposed in the bigger patch. State Govt. shall clarify the reason for not selecting the land on other side of the road for proposed CHC.	This area has been considered suitable for the proposal by the user agency.
v	This is not a site-specific project. Thus, justification for selecting the proposed forest land shall be provided.	As there is no other land available for the project therefore forest land has been proposed.
