5.	Differential GPS map of the area proposed for diversion and land identified for raising CA has not been submitted. Project area and land identified for raising CA may be conspicuously depicted on the DGPS map with proper indexing the assigning legends.	Differential GPS map for area proposed for diversion and land identified for raising CA has been uploaded on portal and enclosed.
6.	Complete tree enumeration details of project affected trees has not been submitted.	Complete tree enumeration details already available in the proposal file, again enclosed.
7.	Note containing justification for establishing for inescapability for locating the project in forest area has not been submitted. Further, since project is RoR and may not be considered site specific, details and reports on explorations of other alternatives and non-forest land for the proposal may also be submitted	Desired undertaking enclosed.
8.	Details of approach road involved in the proposal, if any proposed by the User Agency for access to their main project area and other components, may be submitted.	Confirming note of availability of Approach road and access to main project area and other components enclosed herewith.
9.	Details of employment potential in terms of man/days for skilled, semiskilled and unskilled persons to be generated both on permanent basis (direct and indirect) as well as temporary (direct and indirect), also needs to be provided by the State Government	Detail note on potential of employment in the project enclosed herewith.

In view of the above, we are requesting you to kindly do the further needful.

Your cooperation in this regards shall be highly solicited.

Thanking you,

For, MALKA RENEWABLE ENERGY PVT LTD.
