Minutes of Meeting of Estimate Scrutiny Committee dated 08.01.2021 of Committee of Chief Engineers for Technical

Chairperson welcomed all the officers who attended the meeting.

List of Attendees is as under:

5h. Rajiv Sekhri, Chief Vigilance Officer

5h. Mukesh Garg, Chief Engineer ji.

Sh. Ashwani Chaudhary, Chief Engineer iii.

Sh. Kuldip Verma, Chief Engineer

Sh. Pardeep Jaiswal, Superintending Engineer, IT Amritsar.

## Construction of 4-LANE Bhagtawala Bypass with Railway Under Bridge (RUB) in Amritsar City. (Est. Amount-44.72 Crore)

Sh. Pardeep Jaiswal, Superintending Engineer, Improvement Trust Amritsar while briefing the committee intimated that Improvement Trust, Amritsar plan to construct 4 Lane Bhagtawala Bypass with Railway Under Bridge (RUB) in Amritser City. He briefed on the requirement of the project, as under:-

Background

District grain market at Shagtawale locality in Amritsar City is approached through narrow lanes of Amritsar City. During the season of produce procurement, the route leading to Bhagtawala Mandi becomes very crowed, which leads to traffic jams and delays. The People living in and around the Bhagtawala faces problem in going to Jalandhar, Pathankot and Bathinda side. With the construction this bypass all these problems will be solved.

Description of the Project Road

The Construction of Bhagtawala by pass Starts from Tarn Taran, Amritsar road and it will end near the Bhagta Wali Mandi. The total length of this by pass will be 1870.15 m including one RUB on Amritar Tarm Taran Railway line. It will be 4 laned road with I meter wide central verge.

Justification of the Project

This road section is very important for joining Bhagtawala Malai Engineer. with Amritsar Taran Road. The project is of economic and social importante provement Trus It shall also result into saving in fuel cost and time due to repeated traffic inritsar. jams because of traffic congestion around Bhagtawala Mandi. The presentday traffic in this section very high and is likely to increase further due to construction of this bypass, which warrants for a four-lane road.

Resolution And Project Cost

Improvement Trust, Amritsar has accorded approval for construction of Bypass vides resolution no. 106 dated 22-10-2020 for estimate Cost 41.73 Cr. Approval from Govt, is awaited. SE, IT Amritsar intimated that approval for construction of RUB is yet to be obtained from Railway Department. It was also clarified by him that Soil Bearing Capacity Tests & Pavement Design Test have yet not been conducted and that the astimate has been prepared without appropriate structure design which will be bot done before tendering .Land under the project needs acquisition which is yet to be done.5E, If Amritsar further informed that certain components had got missed out in estimate valuing Rs 41.73 Cr. as under:

Recharge well, side drain, height gauge which were included & Divisional I estimate valuing Rs. 44.72 Cr. was submitted by SE, IT Amritsar which is as

5. No	Description	Estimate Cost
1	Cost of Road (Road Work)	15,87,91,549.00
2	Structures	
a -	Cost of RUB	4,91,72,205.00

Contal P-2

Amritsar For

ontra

-75. ficer \_ .vision The work should be completed within the vetted Amount. The work should be executed as per PWD specifications and relevant All Quality Control measures should be adopted during execution of

work and periodic testing of the construction material be got done approved labs/Govt. institutions i.e. IIT Ropar, Thapar Institute of Engineering Technology Patiala, P.E.C Chandigarh

etc. from time to time before release of payment.

Since this office has not visited the site, therefore, the Engineering head should ensure that the quantities taken in the estimates are checked by them and are as per site conditions. Suitable photographs may be taken/Videography of the site be done in question before start of work & after completion of work & placed in file so that in future if the same is required by any Enquiring officer, the same could be produced to ascertain the type of work done. No changes in specifications in the work may be made by the Engineer-In-charge, without approval from the Competent authority/this office as the case

It may be ensured that there is no variation in the quantities of BOQs

(Tender) for freakishly high/low rates quoted by the hidder.

10) The recovery of serviceable material recovered from the dismantled material should be deducted from the payment of the agency as per Govt. Guidelines/Instructions issued time to time.

The rates of all NS items have been relied based on the certificate given by Trust Engineer/Assistant Trust Engineer stating that rates

applied are competitive market rates.

12) It is advised that the provisions contained in "The Punjab Transparency in Public Procurement Act, 2019" may be followed in letter and spirit.

13) It may be ensured that provisions of Rule 4(283) of the Punjab Hunicipal Rules, 1978 which restricts the Administrative approval to the amount of Technical sanction are followed in letter & spirit. In case the estimate needs revision due to some unforeseen requirements of items during execution which may result in increase in technically sanctioned amount, prior revised Technical/Administrative approval must be taken before finalization of work.

14) Utmost care should be taken for cross slope & longitudinal slope on the roads/Streets/Floors/pavements/green belts so that the Rain water

does remain stagnant & flows properly.

15) The instructions/ guidelines for development works issued by the Government/ Technical advisor to Hon'ble Chief Minister, Punjab time to time should be complied with in letter and spirit while execution of

16) For Water supply/sewerage/dralnage works, Quality Assurance Protocol circulated by the Department of Local Government vide letter no: CE (MC) LG-2017/53262-77 dated 11.09.17 may be strictly

The quantities and rates of all Items have been relied based on the assessment of the Technical Officers, Improvement Trust Amritsar.

Superintending Engineer was strictly asked to obtain consent from 18) Public Works Department on the planned alignment of bypass. He was also advised to review alignment for shortest possible route.

Structure design of road crust and RUB be got done from a Government Engineering College before furtherance and incorporate

Provision for taking up Construction of RUB by IT Amritsar be obtained Provision from Railway Department. In case Railway Department grant Engineer, permission, structure design be got approved from Ranwerpprovement Trust beforehand.

 Acquisition & Utility shifting expenses have been included as lump sum value. The same/have been allowed for budgetary purpose while detail needs to be worked dut a made part of estimate. persculla
