It is submitted that, vide reference 1<sup>st</sup> cited, the Pri Chief Conservator Forests, A.P., Mangalagiri has communicated copies of GoI , MoEF & CC, IRO, Vijayawada Lr. No. 4-APB185/2022-VIJ/396, dated: 30.01.2023 & Govt Memo No. 2633/Section.II/2021/1606355, EFS& T (Sec.II) dept., dt; 07.02.2023 instructed to submit information regarding status of existing mining leases in Chittoor district and Three Men Committee report for which formed a team to examine proposals pertaining to Chittoor holistically keeping in view all the conservation aspects and compliance of Acts/Rules and guidelines related.

In view of the above, it is submitted that, as per request by this office, the Dy. Director of Mines & Geology has forwarded the information submitted by the Asst. Director, Mines & Geology, Chittoor & Palamaner vide reference 3<sup>rd</sup> & 4<sup>th</sup> cited is submitted point wise information here under for favour of kind perusal.

1	Information of existing quarry projects in Chittoor District ( in both forest and non-forest area)	::	It is submitted that, the Asst. Director of Mines & Geology, Palamaner & Chittoor have submitted the information on existing quarry projects both in forest and non-forest area as Annexure-I enclosed
---	----------------------------------------------------------------------------------------------------	----	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2	<p>Status of compliance of Acts / Rules related to such quarry projects in the forest area for which approval accorded in the past.</p>	::	<p>Whenever proposals are received in lieu of diversion of forest land, as per the provisions of the Forest (C) Act, 1980 guidelines / rules, necessary approval will be accorded from the competent authority basing on the guidelines only. Stage-II compliance of all forest mines already submitted.</p>
3	<p>Availability of black granite in Chittoor District (in both forest and non-forest area).</p>	::	<p>As per the report of the A.D., Mines &amp; Geology, Palamaner vide reference 3rd &amp; 4th cited, there are 99 quarry leases granted in his jurisdiction, out of which 1 quarry lease existing in forest land i.e., Sri Sai Rocks in Compt No. 103 of Boyakonda RF of Punganur Range. This is having 7338 cbm per Annum hardly getting 1295 cbm of Black Granite only and remaining are in non-forest land. It was also reported that, nearly 88 granite cutting &amp; polishing industries have been established in jurisdiction of A.D., Mines &amp; Geology, Palamaner and</p> <p>Further, as reported by the A.D. Mines &amp; Geology, Chittoor, there are 186 quarry leases permission granted in his jurisdiction, out of which 21 black granite quarries are functioning in forest land, remaining 165 sanctioned in non-forest land. As per the report of the A.D. Mines &amp; Geology, Chittoor, 3 quarries are not functioning, and also reported that in 21 quarry leases having 79879 cbm per annum, hardly getting 12500 cbm of black granite only. Nearly, 350 – 400 granite cutting and polishing industries have been established in jurisdiction of A.D., Mines &amp; Geology, Chittoor.</p> <p>A.D., Mines &amp; Geology, Chittoor &amp; Palamaner have reported that, new industries coming up day by day, all these factories depended on nearby quarries for raw material. At present all granite quarry owners are using wire saw machines, rock breaking powder</p>

		for excavation of Granite blocks that would support to minimize air pollution and sound pollution. In order to meet the present demand of this variety the exploitation of new areas are also necessary.
4	Need / necessity for opening of new quarry in the forest area.	<p>As reported by the A.D. Mines &amp; Geology, Palamaner &amp; Chittoor, the information is reiterated hereunder.</p> <p>" It is submitted that generally the Black Granite (Dolerite dykes) occurs as intrusive body in the peninsular gneissic complex. The East - West trending dykes are productive in this Sector. The Black Granite found in the forest land is very rare in variety and unique displays pearly sheen against dark green back ground which is not yet identified in any non-forest lands. The Black Granite available in this area is very fine grained ground mass in texture. It is exported to within the state, Out of the states and other countries. As per as Granite mineral concern the nature of deposition, structure and other features influence the recovery of dimensional stone and commercial viability. The particular quality of Black Granite available in the Reserve Forest areas, it is not available in any Revenue lands and Patta lands. The quality and use of granite depend upon its granularity, colour, presence of structural elements, inclusion, brittleness, chemical and Mineralogical composition. This variety can't compare with other Granite varieties available in other places. Hence, there is a necessity to open the new quarries in the Reserve Forest areas and fetching more revenue to the Government ex chequer".</p>
5	Demand & supply of black granite.	::
6	Likely impact due to allowing the quarry projects in the forest area, Mitigation measures required for Conservation point of view etc.,	<p>It is submitted that the mitigation measures in accordance with the Forest (C) Act, 1980 and guidelines thereon, Wildlife Act, 1972, necessary Mitigation Measures will be taken up basing on the field conditions. Apart from this, most</p>

		of the forest area has presence of Schedule-I & II species, which has Conservation Value. Hence, mandatory Wildlife Mitigation, Soil Moisture Conservation be proposed as part of Forest (Conservation) Act, 1980 approval.
7	In respect of proposals for diversion of 4.98 Ha. of forest land in Compt No, 460 of Pachigunta RF, Chittoor East Range of Chittoor District for grant of quarry lease in favour of M/s Sweety Granites, (Proprietor: Sri. D. James) , the Ministry has requested information on (a) Whether the area for overburden dump is sufficient or not and (b) Approval mining plan for 20 years.	:: a) With respect to proposal for diversion of 4.98 Ha of forest land in Compt No. 460 of Pachigunta RF, it is submitted that 0.270 ha is proposed as area of waste dumping which is 5.42% of diverted area; it is proposed and approved in Mining Plan. It may be considered as sufficient. b) The Mining plan approved by the Dy. Director, Mines & Geology, Chittoor is enclosed herewith for reference.

In this connection it is submitted that, as per the records available, the Dy. Director, Mines & Geology, Chittoor has furnished information from 2009 onwards (Forest land diverted cases). The details of mining projects approved by the GoI from time to time in Chittoor District as on 31.03.2024 is enclosed herewith for perusal. A copy of the references 3rd & 4th cited are enclosed herewith for ready reference.

This is submitted for favour of kind information and necessary action.

- Encl: 1. Approved Mining Plan  
2. Information on existing quarry projects (Both Forest & Non-Forest in Annx-I).  
3. References of Dy. Director, M&G, Chittoor, A.D. M&G, Chittoor & Palamaner.

Yours faithfully,

District Forest Officer,  
Chittoor.

GOVERNMENT OF ANDHRA PRADESH  
DEPARTMENT OF MINES & GEOLOGY

From  
K.L.V.Prasad, M.Sc., M.Tech.,  
Deputy Director of Mines & Geology,  
CHITTOOR.

To  
The District Forest Officer,  
Chittoor District.

Letter No.44/GEN/2019, Dated:29-03-2023

Sir,

Sub: Mines & Minerals - O/o the Dy. Director of Mines & Geology, Chittoor -  
Diversion of Forest Land in Chittoor District - Constitution of committee  
by the Gol MoEF & CC - Inspection of Mining Areas in Chittoor District -  
Availability of Black Granites both in Forest and Non-Forest Area -  
Information furnished - Submitted - Reg.

- Ref: 1) Rc.1968/2019/TO, Dt:21.03.2023 from the District Forest Officer,  
Chittoor.  
2) This office Memo.No.44/GEN/2019, Dt:24.03.2023.  
3) Lr.No.6356/Misc/2013, Dt:29.03.2023 of the ADM&G, Chittoor.  
4) Lr.No.966/E/2003, Dt:29.03.2023 of the ADM&G, Palamaner.

\*\*\*

I invite kind attention to the subject and references cited. Through the  
reference 1<sup>st</sup> cited, the District Forest Officer, Chittoor has requested this office to  
furnish the details of availability of black granites both in Forest and Non- Forest Area.  
Further, vide reference 2<sup>nd</sup> cited, this office has issued memo to the Assistant Director  
of Mines and Geology, Chittoor and Palamaner to furnished the above point wise  
information to District Forest Officer as requested him.

Through the reference 3<sup>rd</sup> & 4<sup>th</sup> cited, the Assistant Director of Mines and  
Geology, Chittoor & Palamaner has furnished the information to District Forest Officer  
Chittoor and copy marked to the under signee.

Hence, I am hereby forwarded the same information submitted by the Assistant  
Director of Mines and Geology, Chittoor & Palamaner to take necessary action.

Yours faithfully,

Deputy Director of Mines and Geology,  
CHITTOOR

GOVERNMENT OF ANDHRA PRADESH  
DEPARTMENT OF MINES & GEOLOGY

From

Sri P.Prakash Kumar, M.Sc.,  
Asst. Director of Mines and Geology,  
Chittoor.

To

The District Forest Officer,  
Chittoor.

Letter No.6356/Misc/2013, Dt.29-03-2023.

Sir,

Sub:- Mines and Quarries - Office of the Asst. Director of Mines and Geology, Chittoor - Diversion of Forest Land in Chittoor District - Constitution of committee by the Gol MoEF & CC - Inspection of Mining Areas in Chittoor District - Availability of Black Granites both in Forest and Non-Forest Area - Information Called for - Submitted - Regarding.

Ref:- Memo.No.44/GEN/2019, Dt.24-03-2023 of the Deputy Director of Mines and Geology, Chittoor.

-:oOo:-

I invite kind attention to the subject and reference cited. Through the reference cited, the Deputy Director of Mines and Geology, Chittoor while enclosing the District Forest Officer, Chittoor vide Rc.No.1968/2019/TO, Dt.21-03-2023 duly stated that furnish the point wise information at the earliest, for onward submission to the Gol, MoEF&CC, IRO, Vijayawada.

In this connection, I am herewith submitting the point wise information as detailed below:

Sl.No.	Point Wise	ADM&G Remarks
1.	Information of existing quarry projects in Chittoor District (in both forest and non-forest area)	It is submitted that, the prescribed information is herewith enclosed separately (Annexure - I).
2.	Status of compliance of Acts / Rules related to such quarry projects in the forest area for which approval accorded in the past.	It is submitted that the act and rules may be complied as per conservation act.
3.	Availability of black granite in Chittoor District (in both forest and non-forest area)	it is submitted that the production capacity of existing 16 Black Granite quarry leases having 79,879 Cbm per annum, hardly getting 12,500 cbm of Black Granite only. Nearly 350 - 400 Granite cutting and polishing industries have been established in Chittoor District and also coming up new industries day by day. (All these factories depended on nearby Quarries for raw material. At present all granite quarry owners are using wire saw machines, rock breaking powder for excavation of Granite blocks that would support to minimize air pollution and sound pollution. In order to meet the present demand of this variety (G-20 Black Granite) the exploitation of new areas are also necessary.)

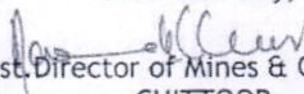

21-18

4.	Need / necessity for opening of new quarry in the forest area	It is submitted that generally the Black Granite (Dolerite dykes) occurs as intrusive body in the peninsular gneissic complex. The East - West trending dykes are productive in this Sector. The Black Granite found in the forest land is very rare in variety and unique displays pearly sheen against dark green back ground which is not yet identified in any non-forest lands. The Black Granite available in this area is commercially marketed as G-20 due to it's very finegrained ground mass in texture. It is exported to Italy, Taiwan and Germany and fetches good revenue to Government. As per as Granite mineral concern the nature of deposition, structure and other features influence the recovery of dimensional stone and commercial viability. Further it is observed that the particular quality of Black Granite available in the Reserve Forest areas, it is not available in any Revenue lands and Patta lands. This G-20 variety in Black Granite is not available anywhere in the state except Chittoor District. The quality and use of granite depend upon its granularity, colour, presence of structural elements, inclusion, brittleness, chemical and Mineralogical composition. This variety can't compare with other Granite varieties available in other places. Hence, there is a necessity to open the new quarries in the Reserve Forest areas and fetching more revenue to the Government ex-chequer.
5.	Demand & Supply of black granite	
6.	Likely impact due to allowing the quarry projects in the forest area, Mitigation measures required for Conservation point of view etc.,	It is submitted that the mitigation measures in accordance with the Forest conservation act and rules inforce.
7.	In respect of proposals for diversion of 4.82 Hectares of forest land in C.No.227 of Basavapalli R.F, Chittapara beat, Chittoor District for grant of quarry lease in favour of M/s Sri Vaishnavi Granites, (Prop: Smt Edavapalli Akhila) Hyderabad, the Ministry has requested information on (a) Whether the area for overburden dump is sufficient or not and (b) Approval mining plan for 2 years.	It is submitted that the waste rock mixed with soil and the Granite waste will be stocked over an extent of 7593 Sq.mts and to a height of 15 to 18 Mts in the Western side of the proposed area as per mining plan approved by the Deputy Director of Mines and Geology, Chittoor vide Lr.No.122/MMP/BG/CTR/2022, Dt.27-01-2022 for period of 05 years.

This is submitted for favour of kind information and taking further necessary action in the matter.

Yours faithfully,

Encls: As above

  
Asst. Director of Mines & Geology,  
CHITTOOR.

Copy submitted to the Deputy Director of Mines and Geology, Chittoor.

Asst. Director of Mines and Geology,  
CHITTOOR

**BRIEF NOTE ON POINTS (3, 4 & 5) ASKED IN TERMS OF REFERENCE & JOINT INSPECTION CONDUCTED BY THE FOREST AND MINES AND GEOLOGY DEPARTMENT AT BASAVAPALLI RESERVE FOREST, CHITTAPARA BEAT, CHITTOOR DISTRICT ON 27-05-2023**

As per request of the District Forest Officer, Chittoor vide Rc.No.1968/2019/TO, dt:21.03.2023 and telephonic information received from the District Forest Officer, Chittoor on 26-05-2023, we are accompanied with the Forest officials on 27-05-2023 and jointly inspected the applied area of M/s.Vasista Mining in Compartment No.227 of Chittapara R.F., Chittoor West Division, Gudipala Mandal, Chittoor District and also inspected existing lease held by M/s.Harish Granites located at Compartment No.222 of Chittapara R.F., Chittoor West Division, Gudipala Mandal, Chittoor District. After inspection, a meeting was conducted with officials of Forest and Mines & Geology Departments and discussed elaborately.

In this meeting the Forest officials requested to submit the detailed data with respect to minerals available, leases, applied areas and production details of lands located in Government, Forest and Patta Lands of erstwhile Chittoor District in point 3, 4, 5 of terms of references.

The following are the details of Leases, Applied areas and Production of the minerals are given below:

**Mineral Occurrences in Chittoor District**

The Chittoor District mainly endowed with important minerals like Black Granite, Colour Granite, Road Metal & Building Stone, Dimansional Stones (DMS),Gravel and Quartz comes under Minor Mineral category. There is no major minerals existing in the erstwhile chittoor District.

**3). Availability of Black Granite in Chittoor District (in both Forest and Non Forest Area)**

There are 35 Black Granite quarry leases granted in Reserve Forest areas since the year 2005, out of 35 quarry leases 14 quarry leases are presently working and 16 quarry leases are expired due to completion of lease period and 5 quarry leases are temporarily stopped. Apart from the Forest areas the mineral Black Granite (G-20 variety) granted 11 quarry leases with an extent of 34.887 Hects only and remaining Black Granite varieties with Poor quality available in 304 quarry leases with an extent of 688.641 Hects.

S.No	Mineral	Forest		Revenue		Patta		Total Area	
		No.of Leases	Area in Hects	No.of Leases	Area in Hects	No.of Leases	Area in Hects	No.of Leases	Area in Hects
1	Black Granite (G-20 Variety)	35	156.853	11	34.887	0	0	46	191.74
2	Black Granite (with low quality)	0	0	304	688.641	0	0	304	688.641
<b>Total</b>		<b>35</b>	<b>156.853</b>	<b>315</b>	<b>723.528</b>	<b>0</b>	<b>0</b>	<b>350</b>	<b>880.381</b>

**4). Need/necessity for opening of new quarry in the forest area:-**

It is submitted that generally the Black Granite (Dolerite dykes) occurs as intrusive body in the peninsular gneissic complex. The East – West trending dykes are productive in this Sector. The width of Dolarite dyke is about 40 to 45 mtrs. The Black Granite found in the forest land is very rare in variety and unique displays pearly sheen against dark green back ground which is not yet identified in any non-forest lands. **The Black Granite available in the Forest area is commercially named as G-20 variety** due to it's very fine-grained ground mass in texture. The detailed exploration of the reserves of Black Granite (G-20 Variety) is yet to be calculated. However at present 46 Black Granite (G-20 variety) quarry leases are existing, out of which 35 quarry leases (156.853 Hects) are in Forest area only and remaining 11 quarry leases (34.887 Hects) falls under Revenue lands. As per the Approved Mining Plans available G-20 Black Granite recoverable resources in Forest area is approximately 40,000 Cbm Per Hectare. The average recovery mineral of Black Granite (G-20 variety) produce in Forest lands @ 125 Cbm per Annum per Hectare, whereas the other Black Granite recovery in Revenue lands @ 19 Cbm per Annum per Hectare. Hence the recovery rate of Black Granite mineral is more in Forest lands than comparatively Non Forest areas.

So far 108 applications were received with an extent of 868.269 Hects for quarrying Black Granite mineral in the Forest limits as the mineral belongs to the Black Granite (G-20 variety) which is solely occurring in Forest areas.

The G20 variety black granite is exported to Europe Countries mainly for the purpose of monuments and it fetches good revenue to Government. As far as Granite mineral is concerned, the nature of deposition, structure and other features influence the recovery of dimensional stone and commercial viability. Further it is observed that the particular quality of Black Granite mineral available in the Reserve Forest areas while very less quantity available is in Revenue lands. This G-20 variety in Black Granite is not available anywhere in the state except Chittoor District. The quality and use of granite depend upon its granularity, Colour, presence of structural elements, inclusion, brittleness, chemical and Mineralogical composition. This variety can't be compared with other Black Granite varieties available in other places. Hence, there is a necessity to open the new quarries in the Reserve Forest areas and it fetches more revenue to the Government ex-chequer and in process our Forest reserves.

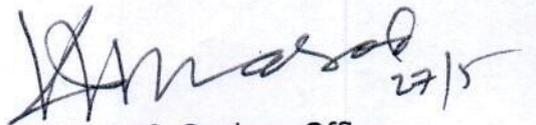

**5). Demand & Supply of G-20 Black Granite:-**

Nearly 350 – 400 Granite cutting and polishing industries have been established in Chittoor District with a machinery capacity of 924 blades, which provides livelihood for morethan 10000 persons directly and indirectly. The average consuming capacity of each blade 250 cbm per Annum totally requires 2,31,000 Cbm per Annum for both Colour & Balck Granite minerals. Generally Cutting & Polishing units consumes about 20% of Black Granite (G-20 variety), which comes out to be 46,200 cbm, but where as Annual Production of mineral is 15,363 Cbm. Hence huge variation for demand and supply of G-20 variety mineral for local industries which is main industry in Chittoor district.

Apart from the local industries 60% mineral is exported to the European Countries and remaining 20% is used in industries in other states. In order to meet the present demand of this variety (G-20 Black Granite) the exploitation of new areas are also necessary.

Further the future prospects of the Black Granite usage is increasing year by year. The current environment for Granite Industry remains challenging. Dimension stone market is said to grow at a fast pace as the demand for granite, marble, sandstone and other dimension stones and stone products is on the rise as the residential consumption and private spending on home are increasing. In addition to this residential remodeling activity is expected to rise as home owners continue to opt for larger kitchens and multiple bathroom, expending the space devoted to countertops. A similar rate of growth in exports can also be achieved with the help of suitable policy framework, infrastructure and other facilities which the Industry expects to consolidate for augmentation of prospects. Black Granite (G-20 variety) which is most suitable for monuments which is very much demand in European Countries. A well-planned, concerted and dedicated efforts are essentially needed for promotion of Indian stones to galvanize their export prospects. The basic objective of sustainable development in mining is to meet the needs of the present without compromising the ability of future generations to meet their own needs.
