Respected Sir,

The Government of Gujarat has planned for establishment of various sub-station under 13th
five year plan for this GETCO has planned to established 66 KV sub-station at village :-
Jirval, Nandgam and Ghanveri Ta-Kaprada; District-Valsad during the year 2019-20 and
also planned accordingly for erection of 66KV Dog line on D/C Panther Tower to feed
proposed 66KV Jirval, Nandgam and Ghanveri sub-station for supply of uninterrupted and
good quality power with better voltage regulation in surrounding area for that with ref letter
No-1 on line applied and Ref letter no-2 Hard copy was submitted for permission but with ref
letter no-6 our Honourable principal Secretary guide for disposal of pending statutory
clearances for construction of various transmission lines on priority basis under Kishan
Suryoday yojana

This is for your kind information and n.a please.

Sub: Disposal of Pending statutory clearances for construction of various transmission lines on priority basis under Kisan Suryoday Yojana.

Res Sir,

This is with reference to an innovative approach adopted by Government of Gujarat through announcement of "Kisan Suryoday Yojana" for the benefit of farmers by providing day time three phase power supply to agriculture fields for irrigation purpose.

In this regard, Gujarat Energy Transmission Corporation Ltd. (GETCO), one of the subsidiary companies of Gujarat UrjaVikas Nigam Ltd. (GUVNL), working as a State Transmission Utility, has to strengthen their transmission network by constructing new transmission lines and substations. After strengthening the district wise transmission network, "Kisan Suryodaya Yojana" implementation will be declared in the District. Kisan Suryoday Yojana is the time bound project of Government of Gujarat and needs to be completed before October 2022 covering 33 Districts of Gujarat State

As per the provision of Electricity Act and as a part of above process, GETCO applies to respective Forest Department office for necessary statutory clearance as per the list attached as Annexure.

Further, it is pertinent to note here that the issue of pending statutory clearances has been discussed in the meeting chaired by Hon. Minister (Energy).

In view of above, I am to request your good self to kindly look into the matter to expedite the disposal of Statutory Clearances for construction of various transmission lines under "KisanSuryodayYojana" and ongoing projects and early disposal of Statutory clearances for construction of new substations for which GETCO had applied to your office.

Prompt action in this regard is highly requested.

With regards,

Yours Sincerely,

Mamta Verma
(Mamta Verma)

UNDERTAKING FOR MINIMIZE TREE CUTTING

(FCA 21.6360 Hec)

This is to certify that Gujarat Energy Transmission Corp. Ltd. hereby agree to minimize Tree cutting in erection of 66KV LILO line for 66kv Jirval sub-station (2.1690 Hec,); 66KV LILO line for 66KV Nandgam sub-station (7.137Hec.) and 66Kv Astol- Ghanveri line-(12.330Hec) by erecting Extended Tower.

In Gujarat state, power supply distribution network is through 11KV and 66KV voltage class, while in other state distribution is through 11KV, 22KV, and 33KV voltage class system. In Gujarat state over-head line with insulated conductor is limited up to 11KV Voltage class. Overhead line with Insulated cable technology in 66KV and above class system is not advisable considering technical reasons. However, we hereby confirm that Over-head lines will be erected with Extended towers to minimize tree cutting.

For Gujarat Energy Transmission Corp. Ltd.

P.N. PATEL
Executive Engineer (Const.)
GETCO, Navsari
