

Justification Regarding objection-5

It has been proposed that, to connect the village Tratik from core network within 15 Km. But after survey it seems that target village cannot be connected within 15 Km to consider all standards of Road according to IRC so we have to Increase the length of road up to 20.550 Km & this length of road has approved by Superintendent Engineer. Sanction letter of Superintendent Engineer attached with this justification.

We ensure that the administrative approval shall take as soon as possible.

Executive engineer
