Annexure-35

Map showing alternate routes with different colors and justification of selection the proposed route (In case of linear diversion)

The route for proposed domestic, commercial & Industrial customers requires linear diversion and is meant for city limits and various village limits. The route is taken through only Government ROW lands preferably along existing Road network or canal network. The majority of the roads are under protected forest or Social forest. In view of this, it is not avoidable to pass through protected forest / social forest. In city area land cannot be accorded as per P&MP act 1962 due to various restrictions and there is no other way but to lay the pipeline along various categories of roads. Hence, the route planned or marked is justified and there is no option available. In view of this, diversion of forest land is required as per demanded statement.

1. There is the minimum removal of trees & damage to vegetation for forest area.
2. The area is hardly **4400.40 Sq.mtr.**
