UNDERTAKING

The area proposed for mining lease is having earlier opened pits by old working lease namely by Sri. P. V. Subba Reddy in Sy. No. 466 for an extent of 43.320 Ha. vide file No. 943/M3/73 and lease period from 14.12.1962 to 13.12.1982 as ascertained by the Assistant Director of Mines & Geology, Nellore field Inspection report. Further, there are 18 working pits of about 1 to 3 mts depth.

Now in this proposal, it is proposed the same pits will be used for taking up of our mining operations, as there is an availability of Mica of muscovite variety having green colour, Quartz is of glassy and granular varieties having white colour and the feldspar is of soda Feldspar having white colour.

In this regard, I undertake that, the reclamation of all overburden dumps and the pits left by the erstwhile user agency i.e., Sri. P. V. Subba Reddy from 14.12.1962 to 13.12.1982, will be done by us with our cost concurrent to the mining operations.
