2. The proposals were examined by the Nodal Officer of Forest Dept. Govt. of West Bengal and certain observations were raised. One of the observations was to combine all the proposals into single proposal.
3. The Portal does not permit more than 12 sites to be uploaded, whereas this office necessitates a minimum of 31 sites. Furthermore, the Portal does not facilitate editing of the area of the proposals formerly submitted.
4. In consideration of the preceding, three proposals are being resubmitted after constantly unsuccessfully complying with the observation, as the Portal itself does not allow it. It is worth noting that all other observations have been in conformity.
