

Letter No. 20210913-02

Date: 13-09-2021

To,
Additional Principal Chief Conservator of Forest, Land Management
Department of Forest
Bhopal, Madhya Pradesh.

SUBJECT: Justification letter for proposed forest land diversion.

Respected Sir,

Our firm M/S Mandavgarh Hotel Pvt. Ltd. in a joint venture with Govt. of Madhya Pradesh on Public Private Partnership (PPP) model, is setting up a Resort in village Sulibardi, Mandu. It is a government of Madhya Pradesh initiative to promote tourism in the region.

Forest Compartment P515, Dhamnod Range, District Dhar, Madhya Pradesh.

Total Area of Forest Land proposed for Diversion: 0.0671322 ha. (881 mtrs Length x 0.762 mtrs Width)

Reasons/Justification for the need of diversion of forest land:

- 1) **Absolutely No water resource available:** Sulibardi Village is in dark zone of ground water resource survey, with absolutely no ground water available. Surface water availability is just for few months of monsoon. Even for the need of drinking water, local village residents have to commute upto distance of 4-5 kms to get water. So getting water through pipeline from nearby Malipura is the only feasible option for water requirement.
- 2) **Supply of drinking water in Sulibardi Village:** Given the permission for the mentioned pipeline, will help us to provide supply of water for drinking purpose to the neighboring residents of Sulibardi village.
- 3) **Regional Development through promoting Tourism:** Government of Madhya Pradesh in order to promote tourism and inturn generate employment and revenue among the locals has provided for land parcels to develop Tourism units. Mandu due to its remote location has very fewer resources for local economy, thus promoting tourism is a bright idea in this regard.

Thank you!
