NOTES :-

Contours are in metres and above Indian national sea level.
 Soutings are approximate.
 The station numbers along roads are shown in slant type, e.g. '5' whereas milestone numbers are shown in upright type, e.g. '35'.
 The names of trees along Thungabhadra (LOWER GANGA CANAL),
 the unroaded road and area along canals are colorable in dry season.
 The areas along the canal are generally irrigated in dry season. Permission to use those along canal is required from the Irrigation authorities.
 The tanks shown in this area, usually contain water from July to December.
 Wells are numerous throughout the cultivated portions of this sheet; only the important ones have been shown.
 A relative height, e.g. '40', marked along a canal indicates the height of the canal embankment above the adjacent country.
 The main canal in the Yamuna River follows the main deep water channel and will change with the indications of the channel.
