

JUSTIFICATION

Historical background:-

School, initially started as monastic school in 1909, founded by 10th King Sedkeong Tulku in the land premise of Enchey Monastery, Gangtok. Therefore, the name Enchey Government Senior Secondary School derived from its birthplace.

The 12th king Palden Thendup Namgyal, evolved this institution into full fledged co-ed modern institution with higher secondary system existing during the time. The school had boarding facilities for both boys and girls. Shifted to existing land location in 1965.

Children of all walks of life, children selected and sent from various monasteries in Sikkim and children of Tibetan refugees were the students of the school.

Problems faced by the students and school in general since many years. Due to lack of several structural facilities such as,

1. Common Assembly ground
2. Spacious – adequate school building
3. A good Auditorium
4. Other essential structures

The students are deprived from enjoying

1. Sharing common ground and space together at a time.
2. Leaving and exchanging views and ideas together
3. Comfortable and healthy environment for physical and mental development.

A minimum infrastructures and structural facilities are the basic need for over all development of an institution especially educational institution. For which space/land is the primary needed resource. The school is adequately bestowed with this resource but just as an ostensible owner without legal sanction, an unfortunate instance to the school as it cannot exercise its right over it for future prospective development. Therefore, the school humbly prays for conferring the school with legal sanction of the resource in its possession to enable to utilize to the fullest and efficiently needed for its future prospective development.

The school sincerely expresses its gratitude for the justice conferred on it
