

The proposed road named *Edavetty Nadayam Depot Road* is used by the people of 3rd and 13th wards of Edavetty Gramapanchayat. Almost 1500 families have been travelling along this road for the past 45 years. A lot of people use this road that connects Edavetty Gramapanchayat Office, Village Office, Bank, Govt Hospital, Muttom Court etc. people who want to go Sasthampara, Arpamattam, Nadayam and Palakandam etc travel through this road. There stays almost 200 families on the one side of and other side is owned by the Social Forestry Department. The Southern part of this road starts from the property of Illikkal Mohammed and it again passes through the front of the property of Attupuram Shajahan, Anganwadi, property of Mrs. Usha Soman and ends to the canal that is adjacent to the property of Sathyan Cheerankuzha. So we are badly in need of almost 1600 meters of land from the forest department at a width of six meters for the completion of this road. There is no other place to construct road. So the only remedy is to construct road in forest area.
