### HEIGHTS & CONTOURS IN METRES

Water features are shown in blue where they generally contain water.  
Contoured areas are coloured yellow.  
The exterior boundaries of areas of Reserved or Protected Forests are shown by green ribbons.  
Contours are approximate.  
A relative height, (R.H.) represents the approximate height, in metres, between the top and bottom of a steep slope.  
Wooded areas are coloured green. Scattered trees and other vegetation are in green, but prominent surveyed trees are in black.

The triangulated heights and contours in this sheet have not been adjusted to the heights of the spirit-levelled bench-marks, and may not be strictly in accordance with them.  
Cart-tracks in this sheet, where there is no descriptive remark, are generally motorable (four-wheel drive) in dry seasons.  
The milestone numbers along the railway and roads are shown in black type, e.g., '3' whereas milestone numbers are shown in upright type, e.g., '15'.  
Tanks shown dry in this area usually contain water from July to December.  
In areas where no tube-well exists, cultivation is periodic and dependent on rainfall.
