**PROJECT SITE LOCATION JUSTIFICATION NOTE**

Forest Land proposed to be diverted for rehabilitation and up gradation Bameetha-Satna section of NH-75 from km 57+160 to km 155+000 (design length 97.840 km) in the state of MP this is to certify that the forest area involved in the proposal is unavaoidable and barest minimum.

Implementation of project will accelerate regional economic development in term of industry, tourism and agriculture. Reduce vehicle operating and maintenance cost by improving road condition also reduce travel time and minimize road accident by increasing road width. The project also generate local employment opportunities through the construction activities and local business. Increase in safety due to construction of median between two direction of traffic flow and plantation of shrub in median. Main benefit of the construction, easy movement of traffic, easy movement of forest official in forest and surrounding area. After widening this road can provide access to tourist and local people to go to Panna, Chhatarpur, Rewa ,Satna and other states easily.
