TABLE-B:
ESTIMATION OF COST OF FOREST DIVERSION

S.No	Parameters	Remarks
1	Ecosystem services losses due to proposed forest diversion	NPV=8.03 Lakhs per Ha. 8.03* 13.9887 Ha =112.329 Lakhs.
2	Loss of animal husbandry productivity, including loss of fodder	10% of NPV is applicable
3	Cost of human resettlement	Not Applicable
4	Loss of public facilities and administrative infrastructure(Roads, building, schools, dispensaries, electric lines, railways etc.)on forest land , which would require forest land if these facilities were diverted due to the project	Doesn't Arise
5	Possession value of forest land diverted	30% of NPV is applicable
6	Cost of suffering to oustees	Not Applicable
7	Habitat Fragmentation cost	50% of NPV is applicable
8	Compensatory afforestation and soil & moisture conservation cost	The actual cost of compensatory afforestation and soil & moisture conservation and its maintenance as prepared by the State Forest Department.

TABLE-C
ESTIMATING BENEFITS OF FOREST DIVERSION IN CBA

S.No	Parameters	Remarks
1	Increase in productively attribute to the specific project	For Uninterrupted power supply and to meet the electric load in telangana state , it is decided to lay new transmission lines and sub stations.
2	Benefits to economy due to the specific project	
3	No. of population benefited due to specific project	Employment of about 35 persons will be get benefited during construction and after completion of the project 25Nos. of regular shift required for maintenance works.
4	Economic benefits due to of direct and indirect employment due to the project	
5	Economic benefits due to Compensatory afforestation	Due to Compensatory Afforestation, the ecological balance of the State will be reminded as it is and there will be every possibility of developing an new eco system from the funds deposited by us.
