Water features are shown in blue where they generally contain water. Cultivated areas are coloured yellow. The exterior boundaries of areas of Reserved or Protected Forests are shown by green islands.

Contours are approximate. A relative height, if marked, represents the approximate height in metres, between the top and bottom of a steep slope. Wooded areas are coloured green. Scattered trees and other vegetation are in green but prominent evergreen trees are in black.

A relative height, e.g., 6, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.

Revised Edition of 1-inch scale (1:50,000) 1981.
