

MERVYN. M. GOVEAS

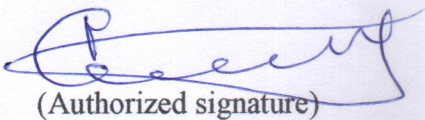

JUSTIFICATION LETTER

The said Location has been selected duly considering site specificity that Proposed Area is a huge big rocky area in middle of Mani nalkuru Village there is no tree growth in this said area. This location is comes under Bantwala Range, Mangalore Forest Division. Bantwala Taluk D K district. Total Extent required for Establish of safer Zone area for quarry & approach Road is 0.9737 Ha. The above said land comes under Forest Land. Hence the proposal was given to Forest department for section of this said land for long term lease period.

The above said location will be used for Quarry purpose to extracts materials used for construction of buildings, roads etc and due to lack of availability of material in that region, it will be more useful for further development activities.

There alignment alternatives were studied i.e. option-1 (length = 181m), option-2 (length = 206m) and Option-3 (length = 206m). Length and area required in forest land is less in option 1 compare to option 2 and option 3. More tree felling is required in option 2 and 3 compare to option 1. Hence option 1 is more feasible compare to option 2 and 3 and more feasible for construction purpose also.
